QUARTERLY REPORT ON CONSOLIDATED RESULTS
FOR THE FINANCIAL QUARTER ENDED 31 DECEMBER 2017

**ADDITIONAL INFORMATION REQUIRED BY BURSA MALAYSIA SECURITIES
BERHAD'S LISTING REQUIREMENTS**

B1. Review of Performance & Results Comparison with corresponding quarter of preceding year ended 31 December 2016.

The results of the Current Quarter showed that the revenue of the Group stood only at RM9.37 million as compared to RM19.16 million for the same period of the preceding year, representing a decrease of RM9.79 million or 51.08%.

The consolidated loss before taxation was RM1.30 million as compared to consolidated profit of RM0.15 million for the same period of the preceding year.

Factors attributed to the substantial decrease in the revenue and the consolidated losses for the Current Quarter under review can be summarized as below:

- (a) A decrease in revenue from the conventional trading of building materials resulted by the intensified price competitions and deferment of the projects due to the sluggish properties' market.
- (b) The effect of the current sluggish economy and the tightening of credits' approval by the financial institutions have weakened the local market demand especially on the medium and luxury residences. Such market situation is expected to continue in the short run due to the current properties' prices which are general higher than the propensity income of the general income group.
- (c) The weakening of the Ringgit against other major currencies did not inspire foreign investors to take opportunity to purchase properties in Malaysia and the effect of the sluggish economies activities on the regional and global basis. In addition, the recent capital control by the Chinese Government would have further negative impact on the properties market. The weaken Ringgit has caused the increased in the prices of the cost of materials, and the increased in the properties' prices would not then reduce in the short run.

B2. Current Year Prospects

The Company will continue to take all reasonable steps and precautions to mitigate the impact of the rising costs and to identify market competitions in order to enhance the revenue base and expand business opportunities, as well as profitability.

Despite the recent government's decision to put a halt to the new development on luxury properties and shopping complexes, the Company is optimistic that the demand from the lower end affordable housing projects and the retail markets would be able to enhance reasonable growth within the construction sectors. The management is currently in discussions with a few property developers to secure contracts on new property projects.

The trading arm will be strengthened by reviving a currently dormant wholly owned subsidiary, Stone Design House Sdn Bhd.

To further complement the trading arm, the plant in Simpang Pulai, Ipoh which had ceased operation since June 2016 due to sustainable losses, has been recommissioned in mid January
