Meanwhile, profit before tax has improved from RM42.7 million to RM52.8 million mainly due to better products mix and improvement in operational efficiencies and cost controls.

25. Commentary on prospects

As Malaysia grapples with the alarming spike in Covid-19 cases, the Government has implemented various extent of travel restriction and other precautionary measures as a response to mitigate rapid escalation of Covid-19 cases.

On 15 August 2021, Ministry of International Trade and Industry ("MITI") announced that manufacturing sector companies listed as essential services in National Recovery Plan ("NRP")'s Phase 1, 2 and 3 areas are allowed to increase their capacity based on the rate of fully vaccinated workers. As at date of report, the Group is allowed to operate with maximum capacity of headcount as the rate of fully vaccinated workers exceeded 80% as prescribed by MITI.

With the outbreak of Covid-19 pandemic which still remains as a threat to overall economic climate, the Group continues to focus on implementing preventive measures and strict compliance with Standard Operating Procedures in our operations to safeguard the health and safety of employees. Other than keeping our employees safe at workplace, the Group is also mindful of other operational challenges such as supply chain disruptions, etc.

The Group has taken relevant actions to minimise the impact of the Covid-19 pandemic to its operations and will continue to pay close attention to developments and evaluate their impact on the financial position, operating results and cash flows of the Group.

The Group is strategically well positioned in the EMS industry and continue to pursue opportunities to grow its market share from existing customers. Notwithstanding the current market conditions, the Group continues to receive enquiries from both existing and potential new customers for new projects.

The encouraging trend towards increased demands for electrical & electronic products is expected to sustain in the near future. With this, the Group's existing capacity is projected to be utilised in near future. As a preparation for future expansion, the Group plans to increase its plant capacity on the newly acquired industrial land at Negeri Johor having land size area of approximately 6.4 acres via purchase consideration of approximately RM14.2 million.

In addition, the Group is in the midst of acquiring a separate piece of industrial land at Negeri Johor with a size area of approximately 7.9 acres via indicative purchase price of RM19.9 million.

We will continue to expand our Printed Circuit Board Assembly ("PCBA"), injection moulding and engineering capabilities to take advantage of a widened product portfolio. The Group remains driven to achieve profitable growth, focusing on the continuous pursuit of operational excellence.

Prospects remain good and barring unforeseen circumstances, the Board expects to achieve profit growth for the financial year ending 31 March 2022.
