26. Commentary on prospects

In view of challenging business landscape which persistently exerts inflationary pressure which in turn results in heightened production costs, the Group will remain vigilant with future order book received from customers in addition to exercise prudence to ensure a lean and highly efficient operating structure.

We will continue to expand our Printed Circuit Board Assembly ("PCBA"), injection moulding and engineering capabilities to take advantage of a widened product assortment.

Meanwhile, the Group is mindful of significant credit concentration risk that may arise from a major customer and continuously seek to diversify its customer base. All in all, against the aforementioned headwinds, the Board is positive that the Group will sustain its resilience by maintaining robust financial position at all time.
