B ADDITIONAL NOTES PURSUANT TO MFRS 134

B1. Review of performance

The Group revenue for the current financial quarter ended 31 July 2013 decreased by RM 864 thousand as compared to corresponding quarter ended 31 July 2012.

The Group achieved profit before tax of RM 867 thousand and revenue of RM 17.09 million for the current quarter ended 31 July 2013. In the corresponding interim period ended 31 July 2012, the profit before tax and revenue were RM 1,318 thousand and RM 17.96 million respectively. This is mainly due to a number of factors mainly the increase in costs of raw material, the weakening of the ringgit, a further write down of packaging material to its net value and the implementation of minimum wage.

B2. Material change in the quarterly results compared to preceding quarter's results

The revenue recorded for the Group was higher by 10.64% as compared to the preceding financial quarter ended 30 April 2013. Profit before tax increased by 114.60% mainly due to the increase in volume of orders from customers.

B3. Prospects for the current financial year

The Group foresees a continued competitive operating environment for the current financial year. High raw material costs, the weakening ringgit and high costs of labor with the implementation of minimum wage will inevitably affect the Group's profit margin. The Board of Directors will continue to focus on improving production efficiency, productivity and processes to ensure a satisfactory financial result for the remainder of the financial year.

B4. Variance of actual profit from profit forecast or profit guarantee

The disclosure requirement is not applicable for the Group.
