The determination of realised and unrealised profits or losses is based on Guidance of Special Matter No. 1 "Determination of Realised and Unrealised Profits or Losses in the Context of Disclosure Pursuant to Bursa Securities Listing Requirements" as issued by the Malaysian Institute of Accountants on December 20, 2010. A charge or a credit to the profit or loss of a legal entity is deemed realised when it is resulted from the consumption of resource of all types and form, regardless of whether it is consumed in the ordinary course of business or otherwise. A resource may be consumed through sale or use. Where a credit or a charge to the profit or loss upon initial recognition or subsequent measurement of an asset or a liability is not attributed to consumption of resource, such credit or charge should not be deemed as realised until the consumption of resource could be demonstrated.
