The Group's improved performance is mainly due to higher sales achieved in the current quarter.

#### B2. Material change in the quarterly results compared to preceding quarter's results

The revenue recorded for the Group was higher by 3.30% as compared to the preceding financial quarter ended 31<sup>st</sup> October 2015. Consolidated profit before tax increased by 18.73% mainly due to the softening of raw material prices coupled with the reversal of provisions no longer required in the current quarter.

#### **B3.** Prospects for the next financial year

The Group foresees a continued competitive operating environment for the next financial year. The weakening of the ringgit coupled with higher costs of production will inevitably affect the Group's profit margin. The Board of Directors will continue to focus on improving production efficiency, productivity and processes to ensure a satisfactory financial result for the next financial year.

#### **B4.** Variance of actual profit from profit forecast or profit guarantee

The disclosure requirement is not applicable for the Group.
