As compared to the preceding quarter ended 31 Oct 2023, the Group recorded a lower revenue figure of RM0.350 million and higher consolidated loss of RM14 thousand. This lower performance is mainly affected by lesser sales.

## B3. Prospects for the next financial year

The business in the next financial year will remain competitive and extremely challenging for the Group. The Group has seen the impact of multiple factors of resin price and rising operating costs as the government is likely to continue to rationalise fuel and electricity tariff subsidies. These few cost push factors, effecting the major cost drivers, will be a precursor to margin erosion for the Group. Nevertheless, the Group will be taking steps to maintain sufficient liquidity to enable it to meet its liabilities as and when they fall due. Capital expenditure will be on a needs basis and will be prudently monitored. Against this backdrop, the Board will continue to focus on improving productivity and efficiency to enable the Company to continue to improve its performance.

## B4. Variance of actual profit from financial forecast or financial guarantee

The disclosure requirement is not applicable for the Group.
