12 Events Subsequent to the End of the Period

There are no material events subsequent to the end of the period under review that have not been reflected in the interim financial statements.

13 Review of Performance

The Group recorded lower revenue at RM12.2 million in the current quarter as compared to RM15.8 million registered in the corresponding quarter last year. The lower revenue achieved was due to the decrease in sales orders from the automated equipment operating segment which was slightly offset by the higher revenue contribution from the automated manufacturing solution operating segment. Despite the lower revenue recorded, the Group achieved a profit before tax of RM0.4 million in the current quarter as compared to RM0.5 million achieved in the previous corresponding quarter. This was mainly contributed by the reversal of impairment loss on trade receivables coupled with a better product mix during the quarter.

Performance of the respective operating segments for the current quarter as compared to the previous corresponding quarter is analysed as follows:-

1) Automated equipment

The decrease in revenue by RM4.0 million to RM8.5 million as compared to the previous corresponding quarter was mainly due to the lower demand for automated equipment as a result of the global slowdown in the semiconductor market in the current quarter. Despite the lower revenue achieved, this segment was still able to record a profit before tax of RM0.5 million due to the reversal of impairment loss on receivables coupled with a better product mix during the quarter.

2) Automated manufacturing solution

Revenue from this segment was RM0.4 million higher than the previous corresponding quarter mainly due to the demand for the integrated manufacturing solution from new customers in the semiconductor market. Accordingly, this segment recorded a marginal profit before tax of RM96,000 in the current quarter as compared to the loss before tax of RM0.5 million in the previous corresponding quarter.

PENTAMASTER CORPORATION BERHAD (572307-U) ("Company")

Notes To The Interim Financial Report For Quarter Ended 30 September 2013

14 Material Changes in the Quarterly Results as Compared with the Preceding Quarter

For the third quarter ended 30 September 2013, the Group achieved lower revenue at RM12.2 million as compared to the revenue of RM17.3 million in the preceding quarter. The lower revenue achieved was due to decrease in sales orders from the automated equipment operating segment as well as the automated manufacturing solution operating segment. Consequently, the Group recorded a lower profit before tax of RM0.4 million as compared to RM0.9 million in the preceding quarter.

Performance of the respective operating segments for the third quarter ended 30 September 2013 as compared to the preceding quarter is analysed as follows:-

1) Automated equipment

The decrease in revenue by RM4.3 million to RM8.5 million was mainly due to the deferment of orders by certain customers as a result of the global slowdown in the semiconductor market. Accordingly, this segment recorded a lower profit before tax of RM0.4 million as compared to RM1.1 million achieved in the preceding quarter.

2) Automated manufacturing solution

Revenue from this segment was RM0.8 million lower than the preceding quarter mainly due to lower demand for the integrated manufacturing solution from semiconductor market in the current quarter. This segment recorded a marginal profit before tax of RM96,000 in the current quarter as compared to the loss before tax of RM0.2 million in the previous corresponding quarter. The loss in the previous corresponding quarter was mainly due to the additional sub contract charges incurred for rework purposes in certain projects which was not a recurring expense in the current quarter.

15 Current Year Prospect

We will continue to strengthen the market position and expand the customer base and simultaneously continue to adopt the outsourcing model for purpose of effective cost management. Subject to the external market conditions and macroeconomic factors, the Company believes that its performance will continue to grow positively with better controllable cost structure in place and wider sales market base.
