Notes To The Interim Financial Report For Quarter Ended 31 March 2017

1 Basis of Preparation

The interim financial report is unaudited and has been prepared in accordance with MFRS 134: Interim Financial Reporting issued by the Malaysian Accounting Standards Board ("MASB") and paragraph 9.22 of the Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Malaysia"). The figures for the cumulative period in the current quarter to 31 March 2017 have not been audited.

The interim financial statements should be read in conjunction with the audited financial statements of the Company and its subsidiaries ("Group") for the year ended 31 December 2016.

The Group has adopted the Malaysian Financial Reporting Standard (MFRS) framework issued by MASB with effect from 1 January 2012. This MFRS framework was introduced by the MASB in order to fully converge Malaysia's existing Financial Reporting Standards ("FRS") framework with the International Financial Reporting Standards ("IFRS") framework issued by the International Accounting Standards Board. The transition from the previous FRSs to the new MFRSs has no impact on the Group financial position, financial performance, cash flows and the notes to the financial statements.

The Group has also adopted all the new and revised MFRSs and IC Interpretations that are relevant and effective for accounting periods beginning on or after 1 January 2012. The adoption of these new and revised MFRSs and IC Interpretations have not resulted in any material impact on the financial statements of the Group.

2 Audit Report of Preceding Annual Financial Statements

The audit report of the Group's most recent annual audited financial statements for the year ended 31 December 2016 was not subject to any qualification.

3 Seasonal and Cyclical Factors

The Group sells its products and services to customers from various sub-sectors of the semiconductor and manufacturing industries. As such, the Group's performance will, to a certain extent, depend on the outlook and cyclical nature of the semiconductor and manufacturing industries.

4 Unusual Items

There were no unusual items affecting assets, liabilities, equity, net income or cash flows during the financial period under review.

5 Changes in Estimates

There were no changes in estimates of amounts reported in prior financial years that have a material effect in the current quarter.

Notes To The Interim Financial Report For Quarter Ended 31 March 2017

6 Valuations of Property, Plant and Equipment

The carrying values of property, plant and equipment have been brought forward, without amendment from the previous audited financial statements.

7 Changes in Share Capital and Debt

There were no issuances, cancellations, repurchases and repayments of debt and equity securities for the period under review.

8 Contingent Liabilities

13 Review of Performance

The Group recorded higher revenue at RM47.6 million in the current quarter as compared to RM28.6 million registered in the corresponding quarter last year, representing an increase of 66.4%. The higher revenue recorded was mainly due to increase in sales from both automated equipment and smart control solution system segment which was partially offset by the lower revenue from automated manufacturing solution operating segment. Due to the higher revenue achieved and better product mix secured, the Group recorded a higher profit before tax of RM9.3 million in the current quarter as compared to the pre-tax profit of RM4.2 million in the previous corresponding quarter, representing an increase of 121.4%.

Performance of the respective operating segments for the current quarter as compared to the previous corresponding quarter is analysed as follows:-

1) Automated equipment

This segment recorded an increase in revenue by RM21.6 million to RM42.9 million as compared to the previous corresponding quarter mainly due to higher demand for the test equipment from semiconductor market especially the smart device sector. Consequently, this segment recorded a higher profit before tax of RM11.9 million against profit before tax of RM4.4 million in the previous corresponding quarter mainly attributable to higher revenue recorded coupled with better product mix with higher margin achieved.

2) Automated manufacturing solution

Revenue from this segment was RM3.7 million lower than the previous corresponding quarter mainly due to lower demand for the integrated manufacturing solution from customers in current quarter. As a result of lower revenue achieved, this segment recorded a loss before tax of RM2.1 million as compared to profit before tax of RM0.5 million in the previous corresponding quarter.

3) Smart control solution system

This segment recorded an increase in revenue by RM1.1 million to RM1.6 million for the current quarter under review. Despite the higher revenue achieved, this segment recorded a higher loss before tax of RM0.6 million as compared to the loss before tax of RM0.4 million in the previous corresponding quarter. This was mainly due to the low margin prototype sales coupled with the slight increase in its administrative cost as compared to the previous corresponding quarter.

Material Changes in the Quarterly Results as Compared with the Preceding Quarter

For the first quarter ended 31 March 2017, the Group recorded slightly higher revenue at RM47.6 million as compared to the revenue of RM43.5 million in the preceding quarter, representing an increase of 9.4%. The higher revenue recorded was mainly due to increase in sales contribution from both automated equipment and smart control solution system segment which was partially offset by the lower revenue from automated manufacturing solution segment. Consequently, the Group recorded a higher profit before tax of RM9.3 million in the current quarter as compared to the pre-tax profit of RM7.3 million in the preceding quarter, representing an increase of 27.4%.

Performance of the respective operating segments for the first quarter ended 31 March 2017 as compared to the preceding quarter is analysed as follows:-

1) Automated equipment

The increase in revenue by RM11.5 million in the current quarter to RM42.9 million as compared to the preceding quarter was mainly due to the continuous increase in demand for the test equipment from semiconductor market especially the smart device sector. Consequently, this segment achieved a higher profit before tax of RM11.9 million as compared to RM11.2 million in preceding quarter mainly attributable to higher revenue recorded.

2) Automated manufacturing solution

Revenue from this segment was RM5.8 million lower than the previous corresponding quarter mainly due to lower demand for the integrated manufacturing solution from customers in current quarter. As a result of the lower revenue achieved, this segment recorded a loss before tax of RM2.1 million in the current quarter as compared to the loss before tax of RM0.5 million in the preceding quarter.

3) Smart control solution system

Revenue from this segment was RM1.5 million lower than the preceding quarter. Revenue from this segment is largely dependent on progress billing based on stage of work done of projects. As a result of lower revenue achieved, this segment recorded a loss before tax of RM0.5 million as compared to the marginal profit before tax of RM20,000 in preceding quarter.

15 Current Year Prospect

The market outlook in respect of demand for smart devices for mobile and automotive segment is expected to dominate the semiconductor industry. This leads to our anticipation that the demand for our test solution for the smart devices will grow in 2017. In addition to this, with the current shortage of labour and demand for high standard manufacturing requirement, the demand for our i-ARMS solution is expected to grow as well.

Looking ahead, we are cautiously optimistic that year 2017 will be another good year for the Group with the current business opportunities in our high-end smart IC device test solutions and i-ARMS. We will continue to strengthen our market position and expand the customer base.
