## **PART B: ADDITIONAL INFORMATION REQUIRED BY THE BURSA MALAYSIA LISTING REQUIREMENTS**

### **B1. Review of performance**

The Group achieved revenue of RM825.06 million, EBITDA (Earnings Before Interest, Tax, Depreciation and Amortisation) of RM94.28 million and profit after tax and minority interest of RM17.58 million for the period ended 30 June 2016. Compared to the corresponding period last year, the higher revenue this year was due to higher project percentage of completion recognised by our Asia & Oceanic and Europe segments. The Group has commenced to deliver process equipment in stages to our customers in relation to the Pengerang Integrated Complex (“PIC”) project during the period.

The Group registered a lower profit before tax for the period mainly due to recognition of one off gain arising from disposal of Australian operations in the corresponding quarter last year and loss incurred in Americas segment for current period.

Consequently, the profit before tax for the period decreased to RM26.42 million as compared with the profit before tax of RM70.33 million in the corresponding quarter last year.

#### Asia & Oceanic Segment

The improved revenue contribution from this segment during the period was mainly driven by the PIC related projects. The lower EBITDA during the period was due to an one off gain arising from disposal of Australian operations in the corresponding quarter last year.

#### Europe Segment

Europe segment’s contribution has improved due to higher progress recognised during the period.

#### Americas Segment

Americas segment recorded a loss during the period mainly attributable to low orders secured resulting from the uncertainties in oil sand development in North America and high project overhead costs.

### **B2. Variation of results against preceding quarter**

The Group’s revenue of RM427.98 million for the quarter was higher by RM30.91 million as compared with the immediate preceding quarter’s revenue of RM397.07 million. The increase was primarily due to higher project percentage of completion recognised during the period.

The profit before tax reported was lower at RM6.90 million as compared with the immediate preceding quarter’s profit before tax of RM19.52 million mainly due to unrealised losses related to foreign exchange fluctuation in current quarter.

### **B3. Prospects**

The Board is confident that the Group will remain profitable for the remaining financial year barring any unforeseen circumstances.

### **B4. Profit forecast**

Not applicable as no profit forecast was given.

**B5. Tax expense**
