Except as disclosed below, the adoption of the above applicable standards, amendments and interpretations by the Group, do not have a material impact on these unaudited condensed consolidated interim financial statements:

a) **FRS 101 Presentation of Financial Statements**

With the adoption of the revised FRS 101, it requires an entity to present, in a statement of changes in equity, all owner changes in equity. All non-owner changes in equity (ie comprehensive income) are required to be presented in one statement of comprehensive income. Components of comprehensive income are not permitted to be presented in the statement of changes in equity. Comparative information has been re-presented to conform with the revised standard as follows:

	Previous FRS 101 reported 31-12-2009 RM'000	Effects on adoption of revised FRS 101 RM'000	Revised FRS 101 01-01-2010 RM'000

b) **FRS 117 Leases**

The Group has adopted the amendment to FRS 117. The Group has reassessed and determined that all leasehold land of the Group which are in substance finance leases and has reclassified the leasehold land to property, plant and equipment. The change in accounting policy has been made retrospectively in accordance with the transitional provisions of the amendment.

The reclassification does not affect the basic and diluted earnings per ordinary share for the current and prior periods. The following comparative figures have been restated following the adoption of the amendment to FRS 117:

	THE GROUP	
	As restated 31-12-2009 RM'000	As previously reported 31-12-2009 RM'000

A2. Changes in Accounting Policies (cont'd)

c) FRS 139 *Financial Instruments: Recognition and Measurement*

Prior to the adoption of FRS 139, all foreign exchange gain/(loss) arising from foreign currency forward contracts are only recognised on their settlement date. With the adoption of FRS 139, all foreign currency forward contracts are required to be recognised at fair value on the date of contract entered and subsequently at the end of each financial reporting period. Any gains or losses arising from the changes in fair value are recognised in profit or loss.

In accordance with the transitional provisions for first-time adoption of FRS 139, this standard has been applied prospectively and comparative information is not restated. However, opening balance adjustments of retained earnings are required to reflect the changes.

Financial Assets

i) Financial assets at Fair Value Through Profit or Loss (FVTPL)

Financial assets are classified as at FVTPL when the financial asset is either held for trading (i.e. acquired principally for the purpose of selling in the short-term) or is designated to eliminate or significantly reduce a measurement or recognition inconsistency that would otherwise arise. Derivatives are also classified as held for trading unless they are designated as hedges. Assets in this category are classified as current assets.

Financial assets at FVTPL are stated at fair value, with any gains or losses arising on re-measurement recognised in profit or loss. Dividend income from financial assets at FVTPL is recognised in profit or loss as part of the other income when the Group's right to receive payment is established.

ii) Loans and receivables

Trade receivables and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as 'loans and receivables'. Loans and receivables are measured at amortised cost using the effective interest method, less any impairment. Interest income is recognised by applying the effective interest rate, except for short-term receivables when the recognition of interest would be immaterial.

Financial Liabilities

i) Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is either held for trading (acquired principally for the purpose of repurchasing it in the near term) or is designated to eliminate or significantly reduce a measurement or recognition inconsistency that would otherwise arise. Derivatives are also classified as held for trading unless they are designated as hedges. Liabilities in this category are classified as current assets.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on re-measurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any interest paid on the financial liability and is included in the statement of comprehensive income.

A2. Changes in Accounting Policies (cont'd)

c) **FRS 139 *Financial Instruments: Recognition and Measurement* (cont'd)**

ii) **Derivative financial instruments**

Derivatives are initially recognised at fair value at the date the derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedge relationship. A derivative with a positive fair value is recognised as a financial asset; a derivative with a negative fair value is recognised as a financial liability. A derivative is presented as a non-current asset or a non-current liability if the remaining maturity of the instrument is more than 12 months and it is not expected to be realised or settled within 12 months. Other derivatives are presented as current assets or current liabilities.
