**PART B
EXPLANATORY NOTES PURSUANT TO APPENDIX 9B OF THE LISTING REQUIREMENTS OF THE
BURSA SECURITIES**

B1. Review of Group Performance

a) Current Year Quarter compared with Preceding Year Corresponding Quarter

The Group recorded a revenue of RM115.58 million and profit before tax of RM5.75 million for the second quarter as compared to preceding year corresponding quarter of RM123.41 million and profit before tax of RM8.74 million respectively. The revenue decreased by RM7.83 million and the profit before tax decreased by RM2.99 million respectively as compared to the second quarter of the preceding year.

For the tin manufacturing segment, revenue increased by RM0.55 million from RM24.78 million to RM25.33 million mainly due to higher sales in the pineapple industry. Current quarter's profit decreased slightly by RM33 thousand from profit before tax of RM4.13 million in the preceding year corresponding quarter to RM4.10 million.

For the F&B segment, revenue decreased by RM8.38 million from RM98.63 million to RM90.25 million mainly due to a weaker US Dollar (USD) against Ringgit Malaysia (RM) in the current quarter compared with the USD exchange rate in the corresponding quarter in 2017 coupled with lower sales from dairy products. The profit before tax decreased by RM2.94 million from RM5.10 million to RM2.16 million for the current quarter under review, mainly due to higher operations costs and unfavourable foreign exchange rates in the current quarter under review.

b) Current Year-To-Date compared with Preceding Year-To-Date

The Group has recorded a revenue of RM219.54 million and profit before tax of RM13.68 million for the 6 months' ended 30 June 2018 as compared to preceding year-to-date of RM225.98 million and RM22.20 million respectively. The Group's revenue decreased by RM6.44 million and the profit before tax decreased by RM8.52 million respectively as compared to preceding year-to-date.

For the tin manufacturing segment, revenue increased by RM6.22 million from RM48.76 million to RM54.98 million mainly due to higher sales in the biscuit industry, edible oil industry and the printing services. Profit before tax decreased by RM3.03 million from RM10.32 million to RM7.29 million. This is due to one-off gain on disposal of machinery of RM3.01 million in the preceding year.

For the F&B segment, revenue decreased by RM12.67 million from RM177.22 million to RM164.55 million mainly due to a weaker US Dollar (USD) against Ringgit Malaysia (RM) in the current quarter compared with the USD exchange rate in the corresponding quarter in 2017 coupled with lower sales from dairy products. The profit before tax decreased by RM5.54 million from RM12.90 million to RM7.36 million, mainly due to higher operations costs and unfavourable foreign exchange rates in the current year-to-date under review.

B2. Variation of Results against Preceding Quarter

For the current quarter under review, the Group's profits before tax increased by RM2.18 million to RM5.75 million as compared to profit before tax of RM7.93 million in the preceding quarter ended 31 March 2018.

a) Tin Manufacturing Industry

Profit before tax increased by RM0.91 million from RM3.19 million to RM4.10 million. This is due to higher margin of tin products, as the selling price has increased in the current quarter under review.

**NOTES TO THE FINANCIAL INFORMATION
FOR THE SECOND QUARTER ENDED 30 JUNE 2018 (UNAUDITED) (cont'd)**

B2. Variation of Results against Preceding Quarter (cont'd)

b) F&B Industry

Profit before tax decreased by RM3.04 million from RM5.20 million in the previous quarter as compared to the current quarter's profit before tax of RM2.16 million due to unfavourable foreign exchange rates in the current quarter under review.

B3. Prospects of the Group

a) Tin Manufacturing Industry

Tin manufacturing industry will remain challenging due to an increasingly competitive market. Raw material prices are currently less volatile and this will help to maintain the stability in the market in the near future.
