#### A2 Accounting Policies (cont'd)

The adoption of the new and revised MFRSs and IC Int, have no material impact on the financial statements of the Group and of the Company, other than those standards as disclosed below:

#### MFRS 10 - Consolidated Financial Statements

It defines and sets out the principle of control to identify whether an investor controls an investee and establishes control as the basis for consolidation.

#### MFRS 11 - Joint Arrangements

It classifies joint arrangements into two types - joint operations and joint ventures by focusing on the rights and obligations of the arrangement. Joint arrangements are arrangements of which the Group has joint control, established by contracts requiring unanimous consent for decisions about the activities that significantly affect the arrangements' returns.

A joint venture is a joint arrangements whereby the joint venturers have rights to the net assets of the arrangement.

A joint operation is a joint arrangements whereby the joint operators have rights to the assets and obligations for the liabilities, relating to the arrangement.

A joint venture is accounted for in the financial statements by the equity method of accounting. Under the equity method of accounting, interests in joint ventures are initially recognised at cost and subsequently adjusted to recognise the group's share of the post-acquisition profits or losses and movements in other comprehensive income. When the group's share of losses in a joint venture equals or exceeds its interests in the joint ventures, the group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the joint venture.

In relation to the Group's interest in the joint operation, the Group recognises its assets plus its share of any assets held jointly, liabilities plus its share of any liabilities incurred jointly, its share of revenue from certified work done on the projects arising from the joint operation plus its share of any expenses incurred jointly.
