## 7. INFORMATION ON CBB (continued)

The open market values are based on the valuation reports dated 26, July 2002, 9 September 2002 and 10 September 2002, prepared by Messrs Jones Lang Wootton using the comparison, cost and investment methods of valuation, where relevant, and are approved by the SC. The valuation certificate from Messrs Jones Lang Wootton on the above properties is set out in section 15 of this Prospectus.

The revaluation surplus has been incorporated in the consolidated financial statements of CBB for the financial year ended 31 March 2003.

### 7.9 Future Plans and Prospects

The future plans of the CBB Group are focused in three key areas as depicted in the figure below:

#### (i) *Market Expansion*

The Group has the following plans for its overseas markets:-

- (a) To expand its existing base of export markets. In the short term, the Group is planning to commence exports of its products to Thailand.
- (b) To establish production facilities overseas. The Group's short to medium term plan is to set-up production facilities in Vietnam and Bangladesh, with longer term plans to do the same in China.

#### (ii) *Expansion of Product Base*

The CBB Group believes that its reputation for quality and reliable products and services has been an important factor in attracting and retaining customers. It intends to continue its focus on enhancing product quality and reliability, and providing its customers with packaging solutions which are both effective and cost competitive.

7. INFORMATION ON CBB (continued)

---

The Group intends to continue with its research and development activities, and to introduce new products and services to keep abreast with technological advancements and changes in customer needs. At present, the Group is in the process of developing polyethylene laminated barrier cartons for use in applications involving refrigeration, such as in the food industry. This type of packaging is moisture resistant, and thus would be suitable for the storage of frozen foods or fresh produce. The expansion into barrier cartons is expected to help the Group to penetrate into other end-user industries not currently served and thereby, diversify its customer base.

(iii) *Expansion of facilities*

The Group is in the process of upgrading its existing equipment and machinery used in manufacturing of multi-wall bags by the second half of 2003, which involves an estimated investment cost of approximately RM2.3 million.

The upgrading to higher capacity equipment and machinery is expected to enable the CBB Group to increase the speed of production, reduce manufacturing defects as well as increase manufacturing output and capacity.

CBB Group intends to build a new corporate head office at PLO 97, Jalan Cyber 5, Kawasan Perindustrian Senai III, Senai, Johor Darul Takzim.
