Additional Explanatory Notes Pursuant to Appendix 9B of the Listing – Requirements of Bursa Malaysia Securities Berhad – First Quarter Ended 30 June 2009

B1. Review of performance

The Group's revenue for the current quarter is reported at RM42.990 million, which is RM4.581 million lower compared to the corresponding quarter of last financial year. The decrease is mainly due to the decrease in selling price of our paper packaging division. Gross profit is reported at RM8.897 million in current quarter representing an increase of RM1.105 million compared to the same quarter in last financial year of RM7.792 million which is mainly due to lower cost of raw materials in current quarter.

B2. Variation of results against preceding quarter

The Group's current quarter profit before tax of RM3.712 million is RM2.348 million lower compared to the profit before tax of RM6.060 million registered in the preceding quarter mainly due to the unrealised loss on foreign exchange in respect of trade receivables.

B3. Prospects

The Group's core attention and focus will be in the paper packaging division which is the key driver of growth. Other avenues and opportunities will continue to be explored and identified while its contract manufacturing division will be nurtured.

The Group anticipates a very difficult and extremely challenging time ahead for its business for the current financial year. Amid the uncertainties in the current weaken global environment, weak consumer confidence and sentiment, the Group is bracing itself to weather this difficult period.

The Group is optimistic that based on the measures and concerted efforts undertaken by the management and employees at all levels, the Group will strive to remain profitable in the current financial year.
