NOTES TO THE INTERIM FINANCIAL REPORT

PART A : EXPLANATORY NOTES AS PER FRS 134 - INTERIM FINANCIAL REPORTING

1. Basis of Preparation

The interim financial report is unaudited and has been prepared in accordance with FRS134, Interim Financial Reporting and paragraph 9.22 of the Listing Requirements of Bursa Malaysia Securities Berhad.

The interim financial report should be read in conjunction with the audited financial statements of the Group for the year ended September 30, 2006. The explanatory notes attached to the interim financial report provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the financial year ended September 30, 2006.

2. Changes in Accounting Policies

The significant accounting policies adopted are consistent with those of the audited financial statements for the financial year ended September 30, 2006 except for the adoption of the following new/ revised Financial Reporting Standards ("FRS") effective for the financial period beginning October 1, 2006:

FRS 2	Share-based Payment
FRS 3	Business Combinations
FRS 5	Non-current Assets Held for Sale and Discontinued Operations
FRS 101	Presentation of Financial Statements
FRS 102	Inventories
FRS 108	Accounting Policies, Changes in Accounting Estimates and Errors
FRS 110	Events after the Balance Sheet Date
FRS 116	Property, Plant and Equipment
FRS 117	Leases
FRS 121	The Effects of Changes in Foreign Exchange Rates
FRS 127	Consolidated and Separate Financial Statements
FRS 128	Investments in Associates
FRS 131	Interests in Joint Ventures
FRS 132	Financial Instruments: Disclosure and Presentation
FRS 133	Earnings Per Share
FRS 136	Impairment of Assets
FRS 138	Intangible Assets
FRS 140	Investment Property

The adoption of FRS 2, 102, 108, 110, 116, 121, 127, 128, 131, 132 and 133 does not have a significant financial impact on the Group. The principal effects of the changes in accounting policies resulting from the adoption of the other new/ revised FRSs are discussed below:

(a) FRS 3: Business Combinations, FRS 136: Impairment of Assets and FRS 138: Intangible Assets

The new FRS 3 has resulted in consequential amendments to two other accounting standards, FRS 136 and FRS 138. The adoption of these new FRSs has resulted in the Group ceasing the amortisation of goodwill. Goodwill is carried at cost less accumulated impairment losses and is now tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired. Any impairment loss is recognised in income statements and subsequent reversal is not allowed. Prior to October 1, 2006, goodwill was amortised on a straight-line basis over its estimated useful life of 5 and 20 years. This change in accounting policy has been accounted for prospectively for business combinations where the agreement date is on or after October 1, 2006.

The adoption of FRS 3, however, have required the Group to eliminate as at October 1, 2006 the carrying amount of the accumulated amortisation with a corresponding decrease in goodwill. The carrying amount of goodwill after eliminating accumulated amortisation as at October 1, 2006 of RM6,872,760 ceased to be amortised.

Under FRS 3, any excess of the Group's interest in the net fair value of acquirees' identifiable assets, liabilities and contingent liabilities over cost of acquisitions (previously referred to as "negative goodwill"), after reassessment, is now recognised immediately in income statements. Prior to October 1, 2006, negative goodwill was amortised over the estimated useful life of 5 years. With the adoption of FRS 3, the negative goodwill as at October 1, 2006 of RM3,171,062 was derecognised with a corresponding increase in retained profit.

(b) FRS 5: Non-current Assets Held for Sale and Discontinued Operations

The Group has applied FRS 5 prospectively in accordance with its transitional provisions, which has resulted in a change in accounting policy on the recognition of non-current assets held for sale.

An item is classified as held for sale if its carrying amount will be recovered principally through a sale transaction rather than through continuing use. The assets and liabilities of a discontinued operation ("a disposal group") that are classified as held for sale are measured in accordance with FRS 5. Immediately before classification as held for sale, the carrying amounts of the non-current assets (or all the assets and liabilities in the disposal group) are measured in accordance with applicable FRSs. Then, on initial classification as held for sale, the non-current assets or the disposal groups are recognised at the lower of carrying amount and fair value less costs to sell. Any impairment loss is recognised in the income statements whereas any unrealised gain is only recognised upon its realisation. With the adoption of FRS 5, the non-current assets held for sale as at June 30, 2007 of RM695,078 was credited from property, plant and equipment with a corresponding debit entry in non-current assets held for sale. The impairment loss of RM23,860 was recognised in the Income Statements in the first quarter.

(c) FRS 101: Presentation of Financial Statements

The adoption of the revised FRS 101 has affected the presentation of minority interest, share of net after-tax results of associates and other disclosures. In the consolidated balance sheet, minority interests are now presented within total equity. In the consolidated income statement, minority interests are presented as an allocation of the total profit or loss for the period. A similar requirement is also applicable to the statement of changes in equity. FRS 101 also requires disclosure, on the face of the statement of changes in equity, total recognised income and expenses for the period, showing separately the amounts attributable to equity holders of the parent and to minority interest.

The current period's presentation of the Group's financial statements is based on the revised requirements of FRS 101, with the comparatives restated to conform with the current period's presentation.

(d) FRS 117: Leases

The adoption of the revised FRS 117 has resulted in a retrospective change in the accounting policy relating to the classification of leasehold land. The up-front payments made for the leasehold land represents prepaid lease payments and are amortised on a straight-line basis over the lease term. A lease of land and building is apportioned into a lease of land and a lease of building in proportion to the relative fair values of the leasehold interests in the land element and the building element of the lease at the inception of the lease. Prior to October 1, 2006, leasehold land was classified as property, plant and equipment and was stated at cost less accumulated depreciation and impairment losses.

With the adoption of the revised FRS 117 as at October 1, 2006, the unamortised amount of leasehold land of RM9,373,767 is retained as the surrogate carrying amount of prepaid lease payments. The reclassification of leasehold land as prepaid lease payments has been accounted for retrospectively and certain comparative amounts as at September 30, 2005 have been restated.

(e) FRS 140: Investment Property

Investment property is property held to earn rental or for capital appreciation rather than for use in production or services, administrative and sale in the ordinary course of business. Prior to October 1, 2006, investments properties were classified under property, plant and equipment and were stated at cost or valuation less accumulated depreciation. Revaluations were carried out at least once in very five years and any revaluation surplus was credited to equity as revaluation reserve and any revaluation deficit was charged out to the income statements.

With the adoption of FRS 140, investment properties are now stated at fair value, representing open market value determined by independent professional firms of valuers on or before the balance sheet date of the financial year. All changes in fair value are recognised in the income statement. The investment properties were last revalued in end 2002. In accordance with the transitional provision of FRS 140, this change in accounting policy is applied prospectively and the comparative amounts as at September 30, 2006 are not restated. Instead, the changes have been accounted for by restating the following opening balances in the balance sheet as at October 1, 2006 as follows:-

	As at 1/10/2006
	RM'000
Increase in retained profit	54
Increase in minority interests	14
Decrease in deferred taxation	68

15. Review of performance

For the third quarter ended June 30, 2007, the Group recorded a revenue of RM106.763 million, representing an increase of 22.64% over the prior year corresponding quarter's revenue of RM87.052 million. The higher revenue in the current quarter as compared to that of the prior year corresponding quarter was due mainly to higher sales recorded in all divisions.

Despite the Group's higher revenue in the current quarter ended June 30, 2007 as compared to that of the prior year corresponding quarter, the Group recorded a loss before taxation of RM1.295 million as compared to prior year corresponding quarter's loss before taxation of RM2.673 million. The Group loss has significantly reduced by 51.55% as a result of overall improvement in its gross and net margin due to higher selling prices.

16. Comment on material change in profit before taxation

The comparison of the Group revenue and profit before taxation for the current quarter and preceding quarter is summarised as follows:-

	2007 Quarter 3	2007 Quarter 2	Varia	ance
	RM'000	RM'000	RM'000	%
Revenue	106,763	101,640	5,123	5.04%
Loss Before Taxation	1,295	762	533	69.95%

For the current quarter ended June 30, 2007, the Group recorded higher revenue relative to the revenue recorded in the preceding quarter due mainly to better and improved sales in all divisions with value added food products manufacturing & trading division recorded the highest increase of 14.60%. However, the Group losses had increased due to higher losses incurred by its breeding farms as a result of lower yield and production and early culling of parent stock. The higher losses were also attributed to higher raw materials of feed costs.

17. Commentary on prospects

It is anticipated that the overall business environment especially the industries in which the Group is involved in will remain challenging in the remaining quarter of this financial year. The management is optimistic that its marine products and value added products manufacturing and trading division will start to turn around in the last quarter of this year. These two divisions had shown sign of increased sales and profit in the last month of this quarter. The Group marine product division still faces challenges especially in delivering profitability for the current financial year has shown improved sales and profit margin and the management is confident that with measures taken so far, the division will be able to cut and reduce its losses for the whole financial year. As for its value added products manufacturing and trading division, it has also recorded higher sales and better profit margin. The management will continue to take steps to improve and sustain its sales and margin to bring the division to profitability. Barring any unforeseen circumstances, it is hoped that the value added products division will contribute positively to the group's overall performance for this financial year.

The management will continue to take any necessary measures to streamline and restructure its Group's operations and activities to return the Group to profitability.

18. Variance of actual profit from profit forecast

Not applicable as no profit forecast was published.

19. Taxation

24. Off balance sheet financial instruments

There were no financial instruments with off balance sheet risk as at the date of issue of this Interim Financial Report save for foreign currency forward contracts. Foreign currency forward contracts are entered into by the Group in currencies other than their functional currency to manage exposure to fluctuations in foreign currency exchange rates on specific transactions. In general, the Group's policy is to hedge as far as possible all amounts of receivables in foreign currency.

The contracted amount and fair value of financial instruments not recognised in the balance sheet as at August 24, 2007 are as follows:-

	Fair Value RM'000	Contracted Amount RM'000
Foreign currency forward contracts	4,447	4,333

The fair value of foreign currency forward contracts are calculated by reference to the current rate of contracts with similar maturity profiles.

25. Changes in material litigation

There were no material litigations as at the date of the interim financial statements.

26. Proposed Dividend

No interim dividend has been declared for the current quarter ended June 30, 2007.

27. Earnings per share

The basic earnings per ordinary share and diluted earnings per ordinary share are calculated based on the Group's net profit attributable to ordinary shareholders over the weighted average number of ordinary shares in issue as follows:-.

Unaudited Interim Financial Report Company No.: 583661 W

	Current Year Quarter June 30, 2007	Prior Year Quarter June 30, 2006	Current Year To Date June 30, 2007	Preceding Year Corresponding Period June 30, 2006
Net profit/ (loss) attributable to shareholders (RM'000)	(798)	(3,413)	(2,657)	(2,744)
Weighted average number of Shares a) Basic				
Weighted average number of ordinary shares in issue ('000)b) Diluted	131,779	130,634	131,768	128,197
Weighted average number of ordinary shares in issue ('000) Adjustment for assumed exercised of	131,779	130,634	131,768	128,197
ESOS ('000)	(657)	572	(315)	726
Adjusted weighted average number of ordinary shares ('000)	131,122	131,206	131,453	128,923
Basic earnings/ (loss) per ordinary share (sen)	(0.61)	(2.61)	(2.02)	(2.14)
Diluted earnings/ (loss) per ordinary share (sen)	N/A	N/A	N/A	N/A

The diluted loss per ordinary share is not shown for current and prior year quarter as the effect of the conversion of employees share options to ordinary shares would be anti-dilutive.

28. Authorisation for issue

The interim financial statements were authorised for issue by the Board of Directors in accordance with a resolution of the directors on 29^{th} August 2007
