The Group recorded a higher revenue at RM69.22 million compared to the preceding year quarter of RM56.81 million, showing an increase of approximately RM12.41 million or 21.83%. The increase in revenue was primarily due to the increase in the number of eggs sold.

The Group recorded a loss before taxation of RM18.94 million as compared to the preceding quarter which recorded a loss before taxation of RM8.65 million. This was predominantly due to lower average selling prices of eggs and the increase in the raw material prices (i.e. corns and soybean meals) which has led to the increase in the feed costs.

B2. Comparison with the Preceding Quarter's Results

	Current Quarter	Immediate Preceding Quarter	
	30.6.2021	31.3.2021	Changes
	RM'000	RM'000	(%)
Revenue	69,215	64,324	7.60

Loss After Taxation Attributable to Owners of the Company	(18,169)	(10,097)	(79.94)

B2. Comparison with the Preceding Quarter's Results (Cont'd)

For the current quarter under review, the Group registered an increase of RM4.90 million or 7.60% in the Group's revenue of RM69.22 million compare to RM64.32 million in Q1 2021. This increase was mainly due to the increase in the number of eggs sold.

The Group, however, recorded a loss before taxation of RM18.94 million for the current quarter under review compared to a loss before taxation of RM10.16 million during the immediate preceding quarter. The loss was mainly due to lower average selling prices of eggs and the increase in the raw material prices (i.e. corns and soybean meals) which has led to the increase in the feed costs.

B3. Commentary on Current Year Prospect

The businesses of the Group will continue to remain challenging due to the continuous increase in the raw materials prices (i.e. corns, soybean meals) and weak average selling prices of eggs amid the prolonged Covid-19 pandemic and the ensuing lockdown. The business operations can possibly be affected due to the exposed risks of the spread of Covid-19 in the workplace.

However, the Company has taken all of the measures set by the government, especially in vaccinating all of the workforce. In view that the travel restrictions have gradually lifted, we expect to see modest improvement in the demand of eggs in the coming months.

The Board will continue to closely monitor the performance of the Group based on underlying risks and take timely action in order to remain competitive.
