The Group has achieved a higher revenue by RM18.34 million or 29.55%, standing at RM80.38 million as compared to the preceding year quarter of RM62.04 million. This increase in revenue was due to both increase in the number of eggs sold and recovery of the average selling prices of eggs during Q3 2021.

TPC Group registered a loss before taxation of RM5.71 million as compared to the preceding quarter, which recorded a loss before taxation of RM8.18 million, showing an improvement by approximately RM2.47 million or 30.17%. This was predominantly due to the increase in average selling prices of eggs during Q3 2021 despite of the increase in raw material prices (i.e. corns and soybean meals) which has resulted higher feed cost for the financial period under review.

B2. Comparison with the Preceding Quarter's Results

	Current Quarter	Immediate Preceding Quarter	
	30.9.2021	30.6.2021	Changes
	RM'000	RM'000	(%)

Loss After Taxation Attributable to Owners of the Company	(5,711)	(18,169)	68.57

B2. Comparison with the Preceding Quarter's Results (Cont'd)

For the current quarter under review, the Group recorded an increase of RM11.16 million or 16.13% in the Group's revenue of RM80.38 million compared to RM69.22 million in Q2 2021. Similarly, this increase in revenue was due to both increase in number of eggs sold and recovery of average selling prices of eggs in Q3 2021.

Consequently, the Group recorded a loss before taxation of RM5.71 million for the current quarter under review compared to a loss before taxation of RM18.94 million during the immediate preceding quarter, indicating an improvement of RM13.23 million or 69.85%. The reduced loss was primarily due to the increased average selling prices of eggs and the number of eggs sold in Q3 2021, even though the surge in raw material prices (i.e. corns and soybean meals) which has resulted to the increase in the feed costs.

B3. Commentary on Current Year Prospect

The business of the Group continues to remain challenging due to the higher raw materials prices (i.e: corns, soybean meals). Nevertheless, average egg selling prices started to progressively recover when the interstate travel ban was lifted.

The Company has taken all of the measures set by the government, especially in vaccinating all of the workforce. In view that the interstate travel restrictions have now fully lifted, we expect to see modest improvement in the demand of eggs in the coming months.

The Board will continue to closely monitor the performance of the Group based on underlying risks and take timely action in order to remain competitive.
