Amendments to FRS1, First-time Adoption Financial Reporting Standards and FRS 127, Consolidated and Separate Financial Statements - Cost of an investment in a subsidiary, Jointly Controlled Entity or Associate	1 January 2010

Amendments to FRSs contained in the document entitled "Improvements to FRSs (2009)"	1 January 2010

Other than the application of FRS 8, FRS101, Amendments to FRS 118 and FRS 139, the application of new FRSs, Amendments to FRSs and interpretations that are effective for the financial statements commencing on 1 January 2010 did not result in any significant changes in the accounting policies and presentation of financial results of the Group.

(i) FRS 8 Operating Segments

FRS 8 requires segment information to be presented on a similar basis to that used for internal reporting purposes. As a result, the Group's segment reporting had been presented based on the internal reporting to the chief operating decision maker who makes decision on the allocation of resources and assesses the performance of the reportable segments. This standard does not have any impact on the financial position of the Group.

(ii) FRS101 Presentation of Financial Statements

FRS 101 requires the separation of owner and non-owner changes in equity. Therefore, the current consolidated statement of changes in equity only includes details of transactions with owners. All non-owner changes in equity, if any, will presented as a single line labelled as total comprehensive income. Comparative information, with exception of the requirements under FRS139, has been represented in conformity with the relevant standard.

In addition, FRS 101 has introduced new title on the financial statements. Statement of Financial Position has replaced Balance Sheets, Statement of Comprehensive Income has replaced Income Statement and Statement of Cash Flows has replaced Cash Flow Statements. This Standard does not have any material impact on the financial position and results of the Group.

(Company No: 448934-M)

INTERIM FINANCIAL REPORT ON CONSOLIDATED RESULTS FOR THE THIRD QUARTER ENDED 30 SEPTEMBER 2010

(iii) FRS 139 Financial Instruments: Recognition and Measurement

FRS 139 establishes the principles for the recognition and measurement of financial assets and financial liabilities including circumstances under which hedge accounting is permitted. The Group determines the classification at initial recognition and for the purpose of the first-time adoption of the standard, as at transitional date on 1 January 2010.

The Group categories financial instruments as follows:

Financial assets

(i) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss category comprise equity investments that are initially measured at fair value. Any subsequent gain or loss arising from changes in fair value of the financial assets are recognised through profit or loss. The fair values of investments that are actively traded in organised financial markets are determined by reference to the relevant Exchange's quoted market bid prices at the close of business on the reporting date. For investments that do not have quoted market prices in an active market, the fair values are measured based on the net tangible assets of the latest available financial statements.

(ii) Loans and receivables

Loans and receivables are initially measured at fair value and subsequently measured at amortised cost using the effective interest rate ("EIR") method. Gains and losses arising from the derecognition of the loans and receivables, EIR amortisation and impairment loss are recognised in profit or loss.

Financial liabilities

All financial liabilities are initially measured at fair value and are subsequently measured at amortised cost, using the effective interest method.
