This Standard supersedes the existing FRS 127 and replaces the current term 'minority interest' with a new term 'non-controlling interest' which is defined as the equity in a subsidiary that is not attributable, directly or indirectly, to a parent. Accordingly, total comprehensive income shall be attributed to the owners of the parent and to the non-controlling interest, even if this results in the non-controlling interest having a deficit balance.

Changes in the Group's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. If the Group loses control of a subsidiary, any gains or losses are recognised in profit or loss and any investment retained in the former subsidiary shall be measured at its fair value at the date when control is lost.

The Group re-phrased its minority interest as non-controlling interest and remeasured the non-controlling interest prospectively in accordance with the transitional provisions of the revised FRS 127.
