i. Quarter Ended 31 March 2020 compared to Quarter Ended 31 March 2020

Covid-19 was the major disruptive factor that the Group have to face up to in the first quarter of 2020, initially from the disruption to the supply chain constricting our sales revenue as components were not coming in to our factories and also our customers were forced to slow down purchasing of our parts as their assembly lines were similarly disrupted. Added on to the challenge, from the month of March onwards the worst effect of the pandemic hit Malaysia and the rest of the world with its full force, the Group was forced to shut down (and hence no sales for Malaysian factories from 17th March onwards) its Malaysian factories from the start of the Movement Control Order in the middle of March onwards. Only the Vietnam factory was running throughout this period but it was nevertheless not spared from the revenue and other supply chain disruptions.

As we have reported in the previous quarterly result, the company was on a trajectory for better sales figures as the company were gearing up for the ramp up of key projects in each of our factories before the pandemic hit us. Notwithstanding the effects of the pandemic affecting us in the first quarter, the sales revenue nevertheless recorded an increase of 9.3% to RM 37.5 mil as compared to the similar period of 2019. However there was a widening in the reported PATMI losses from RM3.6mil recorded in first quarter of 2019 to a loss of RM5.0mil for the current quarter as the abrupt lockdowns and the effects of the pandemic meant that the factories were forced to close with continuing costs, unexpected higher wastage and hence higher losses. On a consolidated basis, the group's depreciation and finance costs also increased due to the effects of the increased fixed assets that the Group have taken on. It is however noteworthy that the Vietnam facility continued to improve and was able to record an increased revenue and also positive EBITDAF, a big improvement from the comparable quarter of the past year.

B2. Variation of Results Against Preceding Quarter

	INDIVIDUAL QUARTER			
	3 Month	3 Month		
	Ended	Ended	Changes	
	31 Mar 2020	31 Dec 2019	%	
	RM'000	RM'000		
Revenue	37,467	42,063	(10.9)	
Operating Profit / (Loss)	(3,871)	(1,555)	(148.9)	
Profit / (Loss) Before Interest and Tax	(3,961)	(1,637)	(142.0)	
Loss Before Tax	(5,291)	(3,055)	(73.2)	
Loss After Tax	(5,288)	(2,220)	(138.2)	
Loss Attributable to Owners of the Company	(4,917)	(2,166)	(127.0)	
EBITDAF	(1,906)	1,801	205.8	

In terms of the comparison with the preceding quarter, the revenue showed a decline of 10.9% from RM42mil to RM 37.5mil , resulting from the seasonal factors as well as the effect of the pandemic on the first quarter of 2020. Seasonally the first quarter of the calendar year have always been the poorest quarter in term of sales revenue. The sales decline resulted in a widening of the loss from RM2.16mil to RM5mil for the same reasons described above.

B3. Prospects of the Group

During the MCO period, the operations of our factories were severely disrupted as we were initially not allowed to operate, and then only were we be able to obtain MITI approval to operate in stages as we progressed through the pandemic phase. The Penang facility because of its medical capability and being part of the vital supply chain within the medical product supply chain was first given permission to operate and then only gradually the other factories were brought back into operations. Despite the opening of factories in stages, this dislocation will impact our revenues, profitability and operating cashflow during this period.

The management have taken a proactive stance in engaging with all the stakeholders ie our customers, suppliers, bankers and also our employees in order to be transparent on all aspects of the operations of the company. The overriding objective during this period is to be able to have an orderly transition and then be able to fight our way out of the situation until the resumption of normal activities. The moratorium given by Malaysian banks have helped with overall cashflow and the fact that our customers have generally been very supportive by paying on time and likewise we have similarly been able to normalize our payments to our vendors as well. Our employees have also done a great part during this period as we strategize and plan for the future as we dealt with the various SOP's and also sacrificed a lot of their personal time and effort to share the burden of the Group. We can also report that generally, customers have not cancelled their purchase orders but rather chose to defer them, so upon resumption of operation, we have been able to continue with shipping our products out, though on reduced volumes.

During this period, the business development team have also been able to continue engaging with existing customers and new customers. The level of enquiries during this period have also been encouraging and hopefully this can translate into more wins and subsequently sales revenue further down the road. We are encouraged that our existing and a few potential customers have during this period awarded several projects which will result in revenue generation in the near future. On that note, we are cautiously and very selectively continuing our investments into new process and equipment to support our customers.

In terms of prospect for the group going forward, the recent announcement by the various governments globally on the exit strategy from their lock downs have given hope to the Group that the demand side visibility from customers is gradually coming back up. However there is still a great element of uncertainty as to the speed and trajectory of the Group's revenue going forward and as a result, the Group is still pursuing a policy of maintaining a tight control on cost on all sites and focusing on cash preservation on the treasury side. The Management believes in the saying that "when the going gets tough, the tough gets going". As the world transitions into this "new normal", we believe that the carefully implemented strategy together with the excellent and united workforce, we will be in a good position and stronger footing to be able to face the ongoing uncertainties and we are cautiously optimistic that given the right supportive policies of the global governments, we should be able to grow out of this crisis in due course. We wish to thank our stakeholders for their support and their indulgences during this period in particular the Government of Malaysia, our bankers, suppliers, employees and customers as we ride through this storm.
