SELECTED EXPLANATORY NOTES

1. Accounting Policies and Methods Of Computation

The interim financial statements are unaudited and have been prepared in accordance with FRS 134: Interim Financial Reporting and paragraph 9.22 of the Listing Requirements of Bursa Malaysia Securities Berhad.

The interim financial statements should be read in conjunction with the audited financial statements for the year ended 31 December 2005. These explanatory notes attached to the interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the financial year ended 31 December 2005.

2. Changes in Accounting Policies

The significant accounting policies adopted are consistent with those of the audited financial statements for the year ended 31 December 2005 except for the adoption of the following new/revised Financial Reporting Standards ("FRS") effective for financial period beginning 1 January 2006:

| FRS 3 | Business Combinations |
|---------|--|
| FRS 101 | Presentation of Financial Statements |
| FRS 102 | Inventories |
| FRS 108 | Accounting Policies, Changes in Estimates and Errors |
| FRS 110 | Events after the Balance Sheet Date |
| FRS 116 | Property, Plant and Equipment |
| FRS 121 | The Effects of Changes in Foreign Exchange Rates |
| FRS 127 | Consolidated and Separate Financial Statements |
| FRS 132 | Financial Instruments: Disclosure and Presentation |
| FRS 133 | Earnings Per Share |
| FRS 136 | Impairment of Assets |
| FRS 138 | Intangible Assets |

The adoption of all FRS mentioned above does not have significant financial impact on the Group. The principal effects of the changes of some accounting policies resulting from the adoption of the other new/revised FRSs are discussed below:

(Company No. 203352-V)

SELECTED EXPLANATORY NOTES

FRS 101: Presentation of Financial Statements

The adoption of the revised FRS 101 has affected the presentation of minority interest, share of net after-tax results of associates and other disclosures. In the consolidated balance sheet, minority interests are now presented within total equity. In the consolidated income statement, minority interests are presented as an allocation of the total profit or loss for the period. A similar requirement is also applicable to the statement of changes in equity. FRS 101 also requires disclosure, on the face of the statement of changes in equity, total recognised income and expenses for the period, showing separately the amounts attributable to equity holders of the parent and to minority interest.

The current period's presentation of the Group's financial statements is based on the revised requirements of FRS 101, with the comparatives restated to conform with the current period's presentation.

FRS 121: The Effects of Changes in Foreign Exchange Rates

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in Ringgit Malaysia, which is the Company's functional and presentation currency.

Under the revised FRS 121, exchange differences arising on a monetary item that forms part of a reporting entity's net investment in a foreign operation, where that monetary item is denominated in a currency other than the functional currency of either the reporting entity or the foreign operation, are to be recognised in profit or loss in the consolidated financial statements.

Previously, such exchange differences were taken to equity. This change in accounting policy has been accounted for retrospectively and has resulted in the following:

SELECTED EXPLANATORY NOTES

2. Changes in Accounting Policy (cont'd)

(b) FRS 3: Business Combinations, FRS 136: Impairment of Assets and FRS 138: Intangible Assets

As of 1 January 2006, any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition are now treated as assets and liabilities of the foreign operation and translated at the closing rate. In accordance with the transitional provisions of FRS 121, this change is applied prospectively. Goodwill acquired in business combinations prior to 1 January 2006 and fair value adjustments arising on those acquisitions are deemed to be assets and liabilities of the parent company and were translated using the exchange rate at the dates of acquisitions.

There is no significant impact of the adoption of FRS 3: Business Combinations and in consequential amendments to two other accounting standards as the Company has ceased to amortise the goodwill in financial ended 31 December 2005 to provide fairer presentation of the value of the goodwill.

FRS 139: Financial Instruments: Recognition and Measurement

This FRS sets out the new requirements for the recognition, derecognition and measurement of the Group's financial instruments and hedge accounting. All financial assets are required to be classified into appropriate categories at initial recognition and the categorisations are re-evaluated at every reporting date. The categories are:

(i) Available-for-sale ("AFS") financial assets

AFS financial assets are those non-derivative financial assets that are designated as available for-sale or are not classified in any of the three preceding categories. Such assets are initially recognised at its fair value including transaction costs and subsequently measured at fair value at the balance sheet date with all gains and losses other than impairment loss taken to equity. Impairment losses are recognised in profit or loss in the period it arises.

On disposal,gains and losses previously taken to equity are recognised in profit or loss. Any reversal of an impairment loss in respect of a debt instrument classified as AFS financial assets is recognised in profit or loss. An impairment loss in respect of an investment in an equity instrument classified as AFS financial assets is not reversed through profit or loss. Prior to 1 January 2006, such investments were accounted for at cost less impairment losses for diminution in value that was other than temporary, which was recognised in profit or loss when they arose. Any reversal of the impairment loss was also recognised in profit or loss.
