SELECTED EXPLANATORY NOTES

2. Changes in Accounting Policies (cont'd)

FRS 101 Presentation of Financial Statements (Revised)

The revised FRS 101 separates owner and non-owner changes in equity. The statement of changes in equity includes only details of transactions with owners, with all non-owner changes in equity presented in the statement of comprehensive income. In addition, the standard introduces the statement of comprehensive income which presents income and expense recognised in the period. This statement may be presented in one single statement, or two linked statements. In addition, a statement of financial position is required at the beginning of the earliest comparative period following a change in accounting policy, the correction of an error or the reclassification of items in the financial statements. This revised FRS does not have any impact on the financial position and results of the Group and Company.

FRS 139 Financial Instruments: Recognition and Measurement

FRS 139 establishes principles for recognising and measuring financial assets, financial liabilities and some contracts to buy and sell non-financial items. The Group and the Company have adopted FRS 139 prospectively on 1 January 2010 in accordance with the transitional provisions. The effects arising from the adoption of this standard has been accounted for by adjusting the opening balance of retained earnings as at 1 January 2010. Comparatives are not restated. The details of the changes in accounting policies and the effects arising from the adoption of FRS 139 are discussed below:

Impairment of trade receivables

Prior to 1 January 2010, provision for doubtful debts was recognised when it was considered uncollectible. Upon the adoption of the FRS 139, an impairment loss is recognised when there is objective evidence that an impairment loss has been incurred. The amount of the loss is measured as the difference between the receivable's carrying amount and the present value of the estimated future cash flows discounted at the receivable's original effective interest rate. As at 1 January 2010, the Group has remeasured the allowance for impairment losses as at that date in accordance with FRS 139 and the difference is recognised as adjustments to the opening balance of retained earnings as at that date.

The following are effects arising from the above changes in accounting policies :

	Increase/(decrease)		
Statement of Financial Position - Group	At 01.01.10 RM'000	At 30.09.10 RM'000
