Table 1: Financial review for current quarter and financial year to date

The Group registered a revenue of RM13.6 million for the current quarter ended 30 September 2017, a decrease of RM0.4 million or 2.9% compared to RM14.0 million in the preceding year corresponding quarter ended 30 September 2016 mainly attributable to lower export sales revenue from wooden picture frame moulding as a result of lower export volume. The Group's profit before tax was RM3.8 million, a decrease of RM0.4 million or 9.5% as compared to RM4.2 million in the preceding year corresponding quarter ended 30 September 2016. The decrease in profit before tax was mainly attributable to lower sales revenue and higher input cost, which mainly resulted by higher labour cost and price hike in imported raw materials.

For the nine months ended 30 September 2017, the Group's revenue slipped slightly by RM0.4 million or 0.9% to RM43.4 million compared to the preceding year corresponding period of RM43.8 million mainly attributable to lower export sales revenue from wooden picture frame moulding as the market demand for wooden picture frame in North America remained flat. The profit before tax was RM13.1 million, a decrease of RM1.3 million or 9.0% as compared to RM14.4 million in the preceding year corresponding period mainly attributable to higher labour cost and price hike in imported raw materials. The input cost of timber raw material was fairly stable for the financial period ended 30 September 2017.

The Group maintained a healthy financial position and also posted a strong net cash position of RM22.1 million as at 30 September 2017.

As disclosed in Note A8, the Group is primarily involved in the manufacturing and sale of wooden picture frame moulding and timber products, and its operation are carried out solely in Malaysia. Hence, there is no detailed analysis on revenue and earnings of other business operating segments.

The Group's profit before taxation for the current quarter under review declined by RM0.7 million or 15.6% as compared to RM4.5 million in the preceding quarter ended 30 June 2017. B3. Current Year Prospects

The persistently below target inflation level in the US economy has to a certain extent had a dampening effect on retail sales particularly those less essential items, the purchase of which could be deferred to a later date. The Group's relatively flat performance recorded in the 3rd quarter did reflect the weak sentiment. On the flip side, ongoing strength in the labour market is expected to lend support to growth in consumer spending in the near term. The Group is making every effort to weather the external challenges by focusing more on development of new marketable products and coming out with other operational improvements. Barring any unforeseen circumstances, we expect to perform satisfactorily for the remaining period of the financial year ending 31 December 2017.

B4. Profit Forecast and Estimates Announced or Disclosed

Not applicable as there were no profit forecast or estimates that have been announced or disclosed for the financial year ending 31 December 2017.

B5. Variance of Actual and Forecast Profit

Not applicable as there were no profit forecast and profit guarantee published.

The effective tax rate for the quarter under review and current year to date was 23% and 24% respectively. The effective rate for the current quarter under review was slightly lower than the statutory rate of 24% mainly due to the reversal of prior year over provision of tax expenses.

B7. Status of Corporate Proposal

There were no announced corporate proposals not completed as at the date of this report.

B8. Group Borrowings and Debt Securities

As at 30 September 2017, the Group does not have any bank borrowings.

B9. Derivative Financial Instruments

As at 30 September 2017, the Group has the following outstanding derivatives financial instruments:-

Currency Forward Contracts	Principal or	Fair v	value
	Notional		
	Amount	Assets	Liabilities
	RM'000	RM'000	RM'000
- Less than 1 year	16,965	372	-

The purpose of entering currency forward contracts is to minimise the impact of unfavourable movement in exchange rate on the trade receivables and expected sales denominated in United States Dollar. There are no cash requirements for these contracts.

The market risk posed by the Group's currency forward contracts depends on the economic changes that may impact market prices. As the exchange rate is pre-determined under such contracts, the market risk in these instruments is not significant. The currency forward contracts are transacted with the Group's banker and the credit risk for non-performance by the counterparty in these instruments is minimal.

The fair value derivative assets amounting to RM372,000 has been recognised in the financial statements.
