MFRS 15 requires an entity to recognize revenue to depict the transfer of promised goods or services to customers for an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Revenue is recognized when a customer obtains control of goods or services, i.e. when the customer has the ability to direct the use of and obtain the benefits from the goods or services.

The Group apply MFRS 15 using the modified retrospective approach by recognizing its cumulative effect of the adoption to the retained profits as at 1 July 2018 on contracts which were on-going before 1 July 2018, and that the comparatives will not be restated. The impacts from the adoption of MFRS 15 in the current financial period has been demonstrated in the Condensed Interim Statement of Changes in Equity.
