B3 COMMENTARY ON PROSPECT

The Malaysian economy is seen contracting at the sharpest rate since 1998 this year, plagued by the Covid-19 pandemic and low oil prices. Private consumption, investment and exports are all seen plunging, weighed on by lockdowns at home and abroad. Risks to the outlook include a slow recovery in key trading partners and snap elections. FocusEconomics panelists see the economy contracting 3.4% in 2020 before rebounding and growing 5.5% in 2021. (FocusEconomics).

Outlook for 2020 remains challenging and uncertain as the full impact of the COVID-19 pandemic has not been ascertained. The Group will strive to intensify efforts to meet the product and service requirements of customers. Besides the foray into the Personal Protective Equipment, facial mask, hand sanitiser, etc. the Group is also diversifying into the food and beverage industry to expand our income stream. The food and beverage segment is expected to generate income in the first half of 2021.
