The new state of the art plant with the build up size of over 700,000 square foot in Pulau Indah is being commissioned and is operational already. The Group is set to embark on a new era in its corporate history, where the new plant will increase the production capacity significantly and improve the Group's operational efficiency. The research and development activities are on going for new products which are planned to be manufactured in the new plant.

The Malaysia business environment is expected to remain challenging in year 2018. The Group will continue to focus in improving the Group's performance by innovating new products portfolio, broadening the distributor network to grow the Group's revenue and profitability.

17 Variance of actual and profit forecast

Not applicable as the Group did not issue any profit forecast for the current financial year.
