15. Review of performance

The Group's revenue for the third quarter ended 30 September 2022 increased by RM19.0 million from RM51.0 million to RM70.0 million as compared to the preceding year corresponding quarter. The increase was mainly attributed to the increase in sales from the steel product and trading activity as well as property, investment holding and others.

The Group's profit before tax ("PBT") was RM8.8 million, as compared to PBT of RM4.9 million recorded in preceding year corresponding quarter. The performance of each business segment for the third quarter as compared to the preceding year corresponding quarter is presented as follows:-

(a) Machinery and equipment segment

This segment recorded a revenue of RM4.8 million for the current quarter as compared to RM5.2 million achieved in the previous year corresponding quarter, representing a decrease of RM0.4 million equivalent to 7.7%. PBT was RM0.4 million, slightly increase of RM0.3 million equivalent to 3.0 times as compared to PBT of RM0.1 million achieved during the corresponding quarter in preceding year. The higher PBT is mainly attributed by higher gross profit margin generated from different product mix.

(b) Steel product and trading activity segment

The revenue for the current quarter was RM61.7 million, representing an increase of RM16.0 million equivalent to 35.0% as compared to RM45.7 million reported in the preceding year corresponding quarter. PBT was registered at RM10.5 million, an increase of RM4.4 million equivalent to 72.1% as compared to PBT of RM6.1 million recorded in the previous year corresponding quarter. The higher PBT is mainly attributed by higher revenue generated.

(c) **Property, investment holding and other segment**

This segment recorded loss before tax ("LBT") of RM2.0 million, an increase of RM0.6 million or 42.9% as compared to LBT of RM1.4 million in the corresponding quarter in preceding year. The increase in LBT is due to impairment loss on other receivables.
