The initial application of the accounting standards, amendments or interpretations are not expected to have any material financial impacts to the current period financial statements of the Group.

INTERIM FINANCIAL REPORT

For the Second Quarter ended June 30, 2024

2. Significant Accounting Estimates and Judgments

(1) Critical Judgments Made in Applying Accounting Policies

There are no critical judgments made by management in the process of applying the Group's accounting policies that have significant effect on the amounts recognized in the financial statements.

(2) Key Sources of Estimation Uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty on the statement of financial position, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are as discussed below:

(i) Depreciation of motor vehicles

The cost of motor vehicles for operation and administrative purposes is depreciated on a straight-line basis over the asset's useful lives. Management estimates that the useful lives of these motor vehicles range from 5 to 10 years. These are common life expectancies applied in the industry. Changes in the expected level of usage could impact the economic useful lives and the residual value of these assets, therefore depreciation charges could be revised.

(ii) Impairment loss for receivables

The policy on impairment loss for receivables of the Group is based on the evaluation of collectability and ageing analysis of the receivables and on management's judgement. A considerable amount of judgement is required in assessing the ultimate realisation of these receivables, including the current credit worthiness and the past collection history of each customer. If the financial conditions of customers of the Group are to deteriorate, additional allowances may be required.

(iii) Deferred tax assets

Deferred tax assets are recognised for unutilised tax losses, unabsorbed capital allowances and other deductible temporary differences to the extent that it is probable that taxable profit will be available against which the losses, capital allowances and other deductible temporary differences can be utilised. Significant management decision is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with tax planning strategies.

3. Auditors' Report on preceding annual financial statements

The auditors' report on the financial statements for the financial year ended December 31, 2023 was not subject to any qualification.

For the Second Quarter ended June 30, 2024

15. Commentary on prospects

The Malaysian economy advanced by 5.9% in the second quarter of 2024 (1Q 2024: 4.2%). The growth is driven by stronger domestic demand and further expansion in exports. Household spending increased amid sustained positive labour market conditions and larger policy support. Investment activity was underpinned by continued progress in multi-year projects and capacity expansion by firms. Exports improved amid higher external demand and positive spillovers from the global tech upcycle. Most supply-side sectors registered higher growth. The manufacturing sector was supported by broad-based improvement across all clusters, particularly in electrical and electronics (E&E). The services sector recorded strong growth, driven by consumer and business-related subsectors. On a quarter-on-quarter seasonally-adjusted basis, the economy expanded by 2.9% (1Q 2024: 1.5%).

The Group's business outlook for 2024 will be challenging and competitive both for its new technology and logistics business. Nevertheless, the Group will continue its focus on optimizing capacity, assets utilization and improving cost efficiency in every division.

16. Profit forecast or profit guarantee

The Group is not involved in any profit guarantee arrangement and has not provided any profit forecast.
