Further details for the overall performance in the financial results are described below.

Quarry Products

Revenue for the quarry products segment has dropped to RM0.36 million with an operating loss of RM0.35 million as compared to the previous year's corresponding quarter revenue of RM3.62 million and operating loss of RM0.58 million. Revenue has decreased mainly due to closure of quarry operations in April 2022.

Civil Engineering

Revenue for the current quarter has increased to RM13.67 million with an operating profit of RM0.75 million compared with the same quarter of the last financial year's revenue of RM10.18 million and operating profit of RM0.32 million.

A higher revenue was recorded by Selinsing Gold Mine("SGM") of RM7.3 million as compared to the preceding year's corresponding quarter of RM4.2 million as production regained traction. Revenue from the Cheras-Kajang Expressway ("CKE") project inched higher at RM2.49 million as compared to RM2.48 million in the previous year as per the client's workplan. In addition, revenue from the new Wangsa Brezza Hill ("WBH") project recorded at RM0.79 million during this quarter has cushioned the lower revenue recorded from the YTL Electrified Double Track project ("YEDT") at RM1.8 million as compared to previous year's RM1.96 million.

Bituminous Products

Revenue recorded for this segment for the reporting quarter had increased significantly to RM5.86 million with an operating profit of RM0.58 million as compared to the same quarter of the last financial year's revenue of RM3.34 million and operating profit of RM0.06 million. This is mainly due to increased in sales from multiple product range such as Coating Enamel, Tack Coat and Blown Asphalt as a result of improvement in demand from water piping and road paving projects.

Services

Revenue for the current quarter was recorded at RM1 million with an operating loss of RM0.33 million compared with the same quarter of the last financial year's nil revenue and operating loss of RM0.36 million. Revenue is driven by 3 new services projects in relation to supply of manpower, scaffolding services and storage tank maintenance services.

Comparison with immediate preceding quarter's results (Q1-FY'23 vs Q4-FY'22)

Group	24,052	25,228

The quarry products segment's revenue has increased to RM0.36 million compared to RM0.27 million recorded in the immediate preceding quarter mainly due to the renewal of operating license obtained in the first quarter of FY23.

The civil engineering segment's revenue has decreased to RM13.67 million as compared to RM14.73 million recorded in the immediate preceding quarter as YEDT project nears it completion.

The bituminous products segment recorded a increase in revenue to RM5.86 million as compared to the revenue of RM5.14 million recorded in the immediate preceding quarter due to continuous market share and demand growth.

The Group performance has recorded a loss before tax of RM1.65 million as compared to loss before tax of RM12.15 million recorded in the immediate preceding quarter, mainly due to cost-cutting initiatives as well as the absence of one-off write downs and impairments in the previous quarter. The Group's active operations recorded a negative EBITDA of RM0.87 million for the quarter.

17. Prospects

Malaysian economy expanded further by 5.0% in the 1Q2022 (4Q2021: 3.6%) per the recent announcement by Bank Negara Malaysia (BNM). The quarter saw an improvement in domestic demand as economic activity returns to normal following the easing of containment measures under the National Recovery Plan ("NRP").

Improvement can be seen in all economic sectors during the period. Major sector that recorded growth during the review included Services at 6.5% (Q42021: 3.2%) and Manufacturing at 6.6% (Q42021: 9.1%). On the other hand, the Construction sector is recovering, registering smaller decrease at -6.2% (Q3 2021: -12.2%) as well as the Mining sector at -1.1% (Q32021: -0.6%).

Private consumption recorded higher growth at 5.5% (Q4 2021: 3.7%) as a result of higher spending on necessities and selected discretionary items such as restaurants and hotels, recreational services and household furnishings. In addition, consumer spending is also supported by policy measures such as Bantuan Keluarga Malaysia. Furthermore, working capital loan disbursements continued to record strong positive growth during the quarter amid higher loan applications and continued drawdowns on existing credit lines by companies to manage their cash flow.

Overall, the latest available economic indicators show that growth is on a stronger footing, mainly supported by strengthening domestic demand and sustained export growth. The Government's direction to transition to endemicity on 1 April 2022 further supported economic activity, matched with further easing of restrictions as well as the reopening of international borders.

Yet, risks to growth such as weaker-than-expected global growth, further worsening of geopolitical conflicts and increased supply chain disruptions remain.

The Group will continue to remain vigilant on its capital expenditure and spending. Greater focus will be placed on various cost control measures and cash conservation as well as increased efforts in replenishing order books. 24. Material Litigation

This is an update to the Report previously submitted by Minetech Resources Berhad ("MRB") regarding material litigation cases involving the Group.

The Group is not engaged in any material litigation cases as at the date of this report other than the following:-

(i) Kuala Lumpur High Court Suit No. S-22NCVC-288-04/2013 ("Suit 288")

The Trial for Suit 288 and the below stated Suit 433 had proceeded at the Kuala Lumpur High Court before Y.A. Datin Hajah Azizah on 23rd, 24th, 25th and 26th October 2017, 13th and 23rd November 2017.

The Judge had on 20th April 2018 found the termination by Sri Manjung Granite Quarry Sdn Bhd ("SMGQ") to be unlawful and had ordered SMGQ to pay damages to Optimis Dinamik Sdn Bhd ("ODSB") (the quantum of damages is to be assessed by the Court Registrar) together with interest thereon at the rate of 5% per annum from the date of the Writ of Summon dated 1 April 2013 until full payment and costs of RM80,000.

As regards to SMGQ's Counterclaim, the High Court only allowed SMGQ's counterclaim for the outstanding tribute payment of RM256,300 owing by ODSB which is to be deducted (set-off) from the damages assessed to be paid by SMGQ to ODSB. The Counterclaim of RM256,300 allowed by the High Court in Suit 288 should have no financial impact on the Group as it is to be deducted (set-off) against damages to be paid by SMGQ to ODSB.

On 15th May 2018, SMGQ filed their appeal against the High Court's decision in Suit 288 ("SMGQ's Appeal").

ODSB had filed Notice of Direction to the High Court for the assessment of damages. The Judge ordered for the assessment of damages to be stayed pending the disposal of SMGQ's Appeal.

SMGQ's Appeal was heard on 31st March 2021. The Court of Appeal dismissed SMGQ's Appeal and upheld the High Court's decision in deciding that SMGQ has unlawfully terminated ODSB's contract and the damages should only be given to ODSB.

On 29th April 2021, SMGQ filed a leave application at the Federal Court. On 15 September 2021, the Federal Court dismissed SMGQ's application for leave to appeal with cost of RM15,000.00. Therefore, the High Court's decision in deciding that SMGQ has unlawfully terminated ODSB's contract and the damages should only be given to ODSB is upheld. The Court has fixed 20th September 2022 for Case Management on Notice of Assessment of Damages.
