## 15. Review of performance

For the quarter under review, the Group recorded revenue of RM2.52 million, as compared to RM2.51 million in the corresponding quarter of the preceding year. The revenues have been consistent for both the periods; where the revenues from the servicing and repairs of mobile telecommunication equipment products division experienced the loss of revenue due to the implementation of various Movement Control Orders ("MCOs").

The Group recorded a loss before tax ("LBT") of RM0.52 million as compared to LBT of RM0.63 million in the corresponding quarter of the preceding year. The lower LBT in the current quarter was due to lower administrative expenses incurred.

#### 16. Comparison with immediate preceding quarter's results

The Group recorded revenue of RM2.52 million, a decrease of 19.0% from the preceding quarter of RM3.11 million. The decrease in revenue was due to the drop in sales from the servicing and repairs of mobile telecommunication equipment products division as stated in Note 15.

The Group recorded a LBT of RM0.52 million as compared to LBT of RM0.42 million in the preceding quarter. The higher LBT incurred was caused by decrease in revenue during the various MCOs.

The Board will continue to review and look into ways of cost control measures.

#### 17. Prospects

The global health crisis involving COVID-19 will impact to the performance of the Group in financial year 2021, with the imposition of various MCOs and National Recovery Plan.

With the acceleration of the National Immunisation Program and the recently implemented National Recovery Plan; it is anticipated that the economic activities will pick up for a sustained recovery.

With the anticipated economic recovery, the Board is looking forward for more opportunities to explore new businesses/assets to acquire and/or to diversify into; to improve the financial performance of the Group. Meantime, the Group will actively manage costs and seek to maintain its current level of activities.
