In regard to the continuing operations, the Group achieved revenue of RM17.2 million for the quarter ended 30 September 2014 which represents an increase of 7% as compared to RM16.1 million for the corresponding quarter in the preceding year. The cumulative revenue for the financial year to-date meanwhile registered a slight decrease, to RM46.5 million from RM47.1 million in the preceding year. This represents a decrease of approximately 1%, mainly due to lower sales demand in the home appliances segment.

Profit before taxation of the Group for the continuing operations registered an increase of approximately 10% for the quarter ended 30 September 2014, compared to the corresponding quarter in 2013, mainly due to the favourable foreign exchange by the Malaysia subsidiary and profit generated by the Vietnam subsidiary.

However, the profit before taxation of the Group for the continuing operations registered a decrease of approximately 20% for the cumulative year to date ended 30 September 2014, compared to the same corresponding cumulative period in 2013, mainly due to the impairment loss of RM1.1 million suffered in the first quarter of 2014 upon completion of the disposal of discontinuing operations, and lower profit margin and lower sales of the home appliance segment.

The tax expense is derived based on management's best estimate of the tax rate for the year.

The Group's effective tax rate for the cumulative year to date is higher than the statutory rate, mainly due to utilisation of tax losses against the profit generated by Vietnam subsidiary and the loss on disposal of the discontinuing operations which is not allowed for tax purposes.
