PART B: ADDITIONAL INFORMATION REQUIRED BY THE BURSA MALAYSIA LISTING REQUIREMENTS

B1. Review of Performance

	Individual Quarter		Year to date	
	30.06.2024	30.06.2023	30.06.2024	30.06.2023
	RM'000	RM'000	RM'000	RM'000
	(unaudited)	(unaudited)	(unaudited)	(unaudited)
Revenue	20,190	17,058	36,048	30,677
Profit before taxation	2,366	1,380	5,078	3,426

The Group achieved revenue of approximately RM20.2 million and RM36.0 million for the quarter and cumulative financial period ended 30 June 2024. This represented an increase of approximately 18% as compared to the corresponding quarter and cumulative financial period in the preceding year. The improvement in revenue was mainly due to higher demand in Malaysia offsetting the drop in demand in Singapore.

The profit margin for the quarter and cumulative financial period to date increased in line with the higher revenue and improved output efficiency. This is despite the adverse impact of impairment loss allowance made on trade receivables and lesser gain on foreign exchange movement for the current quarter.

B2. Comment on Material Changes in the Profit Before Taxation for the Quarter Reported on as Compared With Immediate Preceding Quarter

	Individual Quarter	
	30.06.2024 31.03.2	
	RM'000	RM'000
	(unaudited)	(unaudited)
Revenue	20,190	15,858
Profit before taxation	2,366	2,712

The Group achieved revenue of approximately RM20.2 million for the current quarter under review as compared to almost RM15.9 million in the immediate preceding quarter, registering an increase of approximately 27%. This was mainly due to improvement in demand especially in Malaysia.

Despite the higher revenue, profit before taxation of the Group for the current quarter under review is lower compared to the immediate preceding quarter. It was mainly due to lower profit margin on manufactured products and unfavourable foreign exchange movement.

PART B: ADDITIONAL INFORMATION REQUIRED BY THE BURSA MALAYSIA LISTING REQUIREMENTS (CONT'D)

B3. Current Year Prospects

For the quarter review, the Group experienced a healthy pick up in sales orders from customers especially in Malaysia, following the improved market sentiments and normalisation of its customers' inventory level. However, the downside risks persist due to global economic uncertainty and the potential impact of continuing geopolitical tensions, including the Red Sea crisis and renewed US-China tensions. Overall, we cautiously optimistic and hope that the improvement in the local demand will continue which will then augur well for the Group for the remainder of this year.

B4. Variance of Actual Profit and Forecast Profit of the Group

The disclosure requirements for explanatory notes for the variance of actual profit and forecast profit and for the shortfall in profit guarantee are not applicable.
