T7 Global Berhad

B3 Current Year Prospects

The recovery in oil & gas activities in the region did have a positive impact on the T7 Group's ongoing projects. The outlook for the upstream oil and gas sector remains positive given high oil & gas prices, increase capex spending and the reopening of China's borders, despite concerns on the world economy and potential for a global recession.

For the T7 Global Group, oil & gas remains as the Group's core business and the Energy Division will continue to bid and secure new contracts and be on the lookout for new opportunities in the South East Asia region.

For the Aerospace Division, the industry has been affected by the Covid-19 pandemic and is expected to remain challenging for the next few years. However, the division has managed to secure new international clients which will bring in recurring revenue to its metal surface treatment facility. The division will continue to pursue new clients and new orders in the Aerospace industry given the recovery in travel demand in 2023.

For the Construction Division, the T7 Global Group had secured the baggage handling system asset replacement program at Terminal 1, KL International Airport in Dec 2022. The said division will focus on project execution and is expected to record satisfactory results in the coming years.

The Board and Management is cautiously optimistic in the Group's ability to achieve satisfactory results for the financial year ending 31 December 2023 due to its resilient orderbook and continued performance in project execution and operations.

B4 Variance of Actual and Profit Estimates

The Group has not provided any profit forecasts and therefore no comparison is available.
