3. Prospects

Demand for industrial rubber hoses will continue to see gradual recovery from both the emerging and developed economies. Moving forward, the Group will ensure it stays ahead of market trends, responding swiftly to changes for betterment through automation and research. In the near term, the Group expects the raw material prices to trend at current levels with possibly further downward inclination. The recent easing of raw material prices has enabled a more favourable operating environment for sustainable growth in demand and earnings. During the financial year, the Group has undertaken various marketing initiatives to expand its customer base with the view to absorb the additional capacity that will come onstream from Factory 3, which is expected to be commissioned in July 2015.
