PART B: ADDITIONAL INFORMATION REQUIRED BY THE BURSA MALAYSIA LISTING REQUIREMENTS

B1. Review of performance

The Group achieved revenue of RM64.73 million for the period ended 31 Dec 2012 as compared to RM76.65 million recorded for the period ended 30 Nov 2011. The huge decrease of RM11.92 million is mainly due to lower demand for HDPE pipes from its manufacturing and trading segment. Neverthe less, the manufacturing and trading segment remained as the Group's main revenue contributor which accounted for approximately 98.17% of its total revenue for the period ended 31 Dec 2012. The Group recorded a profit before taxation of RM3.72 million and profit after taxation of RM2.71 million during this period under review as compared to RM3.20 million and RM2.43 million respectively in the previous period ended 30 Nov 2011. The improved in profit before and after taxation is mainly due to the realised gain in disposal of asset held for sale and plant and equipment. The improvement is partly offset by increase in the income tax expense.

B2. Variation of results against preceding quarter

The Group achieved revenue of RM21.79 million for the current quarter under review as compared to RM21.13 million in the previous quarter. The Group recorded profit before taxation RM0.78 million and profit after taxation of RM0.45 million for current financial period under review as compared profit before taxation of RM1.53 million and profit after taxation of RM1.08 million for preceding quarter. This is mainly due to lower revenue recorded.

B3. Current year prospects

Barring any unforeseen circumstances, the Board expects the Group to continue to achieve satisfactory performance.

B4. Variance of actual and forecast profit

The disclosure requirements for the explanatory notes for the variance of actual profit and forecast profit and for the shortfall in profit guarantee are not applicable.

B5. Income tax

	Current Quarter 31 Dec 2012 RM' 000	Current Year To-Date 31 Dec 2012 RM' 000
Current tax expense	359	1,078
Deferred tax recognised	(23)	(69)
	336	1,009

Tax expense for the current period ended 31 Dec 2012 is derived based on management's best estimate of the tax rate for the financial period. The effective tax rate for the period presented above is higher than the statutory tax rate principally due to the under provision of taxation in prior year.

RESB, being the previous occupant of the land and factory had previously applied to TNB for the supply of electricity. Subsequently, the property was occupied by Crystal Bright Plastics Sdn Bhd ("the Third Party") at the material time and the arrears owing to TNB thereof are attributable to the Third Party although the account holder is RESB. RESB had filed and served its Statement of Defense on 13 September 2010. RESB had filed its Third Party proceedings against the Third Party to pay the arrears claimed by TNB as the Third Party were occupying the property at the material time.
