The Group's and the Company's issued and fully paid-up share capital comprised ordinary shares with a par value of RM0.50 each. The new Companies Act, 2016, which came into operation on January 31, 2017, introduced the "no par value" regime. Accordingly, the concepts of "authorised share capital" and "par value" have been abolished.

The amount standing to the credit of the Group's and of the Company's share premium account has become part of the Company's share capital. These changes do not have an impact on the number of shares in issue or the related entitlement of any of the shareholders. However, in accordance with the transitional provision of the Act, the Company has a period of 24 months from the effective date of the Act to use the existing balances credited in the share premium in a manner as specified by the Act.
