Current quarter vs. Preceding Year Quarter

Group operating revenue increased by 12 percent to RM9.9 million from RM8.8 million recorded in the same period of the preceding year. This was mainly contributed by the new revenue stream from Pulp & Paper segment of Manufacturing Division which contributed RM4.47 million or 45 percent to the Group operating revenue. The increase was mitigated by lower sale of semi-finished fertiliser (Fermented EFB) of RM 1.9 million and the absent of RM1.31 million revenue from Osmocell Sdn Bhd as the company ceased to be the subsidiary of the Group's Utility & Renewable Energy division after the disposal in October 2022. The Printing & publishing recorded lower revenue by 7% due to the lower order secured from book store for student activities book "Buku Pendidikan Keselamatan Jalan Raya".

Group net finance cost increased by 207 percent as compared to the same quarter result of preceding year mainly due to Bank Pembangunan loan interest which commenced in April 2022.

Group recorded net profit of RM1.11 million, representing a 7 percent increase as compared to profit of RM 1.04 million recorded in the quarter of preceding year.

Group PATAMI ("Profit After Tax and Minority Interest/ Non-controlling Interest") of RM 1.13 million. Due to marginal increase, basic earnings per share (EPS) of the Group stood at 0.14 cent per share compared to 0.13 cent per share in same period of preceding year.

4. COMMENTARY ON PROSPECTS AND TARGETS

The Group is confident that the commercial printing remains competitive in spite of the rise in digitalisation. Newly incorporated subsidiary Nextgreen Packaging (M) Sdn Bhd aims to penetrate the box and packaging segment in local market.

Our first Pulp & Paper manufacturing plant ("Phase 1A") operated by Nextgreen Pulp & Paper Sdn Bhd ("NGPP") with annual production capacity of 10,000 metric ton had commenced its operation in June 2022. The production activities are ongoing to fulfil the customers" order as well as product samples from oversea potential customers. The Group is confident in expecting to conclude the offtake agreement from oversea customers in the near future.

The tissue paper production plant with capacity up to 10,000 metric ton a year is expected to commence its construction in early of Q3FY2023.

As for fertiliser segment, the Group had commenced the construction of fertiliser production plant with the annual capacity of 30,000 metric ton which is to be located within GTP. The plant will be operated by wholly owned subsidiary Nextgreen Fertilizer Sdn Bhd ("NGF") to produce solid and liquid organic fertiliser by using the wastage from Phase 1A and Fermented EFB. The targeted completion of the construction work will be by the end of September 2023. The fertiliser segment will be expecting to contribute new stream of operating revenue to the Group's coming Q4FY2023.
