### **5.1.5 DEVELOPMENT IN APPLICATION MARKETS**

Currently, a major portion of the manufacturing sector is moving towards automation and high-end fabrication to serve high technology industries and these have prompted companies within the sectors to manufacture high precision components and parts which require precise and accurate measurements. In tandem with this, the engineering supporting industry is expected to seize better opportunities from the growth of the manufacturing sectors especially the high technology industries such as aerospace and medical equipment industries.

The CD bright steel polished shaft manufacturing industry is closely related to the needs and demands of the engineering supporting industry, which in turn supplies machined parts and components, as well as machining services to the E&E, automotive, M&E, medical and healthcare, aerospace and telecommunications industries. In 2006, a total of 105 projects were approved in the engineering supporting industry, involving investments of RM1.1 billion (2005: 94 projects; RM598.4 million)<sup>7</sup>. The rapid development of the local E&E, automotive and machinery manufacturing industries will further expand demand for machined parts & components as well as machining services, which provides favourable market opportunities for the local CD bright steel manufacturers. Within the automotive parts & components sector, applications identified for maintaining steel polished shafts as the material of choice include drive shafts, constant velocity joints, coil springs, torsion bars and fasteners. Potential new applications include connecting rods and crankshafts. Transmission gear sets and rack and pinion steering systems also fall into the category of offering potential for both existing and new CD bright steel polished shafts applications.

**5.1.6 DEMAND FROM BROAD-BASED MANUFACTURING INDUSTRIES**

Basically, the precision machining sub-sector within the engineering supporting industry is led by continuous growth in the manufacturing sector in the E&E sector, equipment (medical devices, flow process control equipment, measuring instruments and other machinery) and automotive parts & components sectors. Growth in the manufacturing sector strengthened in 2006, underpinned by the continued upturn in the global electronics cycle which began in the second half of 2005. Overall, the manufacturing sector recorded a growth of 7.1% in 2006 and is expected to grow 3.1% in 2007<sup>8</sup>. Due to the diverse customer range and industries that precision machining companies can service, there are opportunities for these players to tap into by utilising their capabilities. Overseas investments in the manufacturing sector were led by companies in the E&E and petroleum industries<sup>9</sup>.

**5.2 CONCLUSION**

With stronger growth and improvements in demand from the diverse manufacturing activities in the manufacturing sector, especially the E&E and automotive industries in 2006, the manufacturing sector is expected to provide a continuous impetus for growth for the CD bright steel industry. The CD bright steel industry is closely related to the needs and demands of the engineering supporting industry, which in turn supplies machined parts and components, as well as machining services to the E&E, automotive, M&E, medical and healthcare, aerospace and telecommunication industries.

Changing OA trends are also expected to contribute to the growth for CD bright steel through the accelerating expansion of digital and network technologies into the daily operations of corporations. These trends have highlighted the need to utilise office automation to meet operational efficiencies, cost-savings and optimal output results. The growing market for OA products will provide the impetus for manufacturers of CD bright steel shafts to continuously improve production processes and fulfil stringent quality requirements to achieve higher productivity, profitability and product acceptance within the precision machining sub-sector of the engineering supporting industry.

On the export outlook, there are ample opportunities found in the de-regularisation of ASEAN under the ASEAN Free Trade Area (“AFTA”) regime. The emerging combined population of 565 million in Southeast Asia<sup>10</sup> presents a huge market for CD bright steel manufacturers as well as machining & engineering supporting industries, automotive parts & components manufacturers. Besides Malaysia, Thailand and Indonesia provide substantial expansion opportunities for Malaysian CD bright steel products manufacturing companies, particularly for high precision products, as the Malaysian companies are cost-efficient and able to produce superior quality products which are acceptable internationally.

The rapid development of the local E&E, automotive parts & components, and M&E industries will further expand demand for machined parts and components as well as machining services, which provides favourable market opportunities for the local CD bright steel manufacturers. On the back of these factors, the prospects of the CD bright steel industry remain bright.

A number of applications will, however, be held in reserve to replace any successfully balloted applications, which are subsequently rejected. For such applications, which are subsequently rejected, the application monies without interest will be refunded to applicants by MIH by way of cheques issued by MIH. The cheques will be issued to the applicants not later than ten (10) days from the day of the final ballot of the Application.

Should applicants encounter any problems in their applications, they may refer to the Participating Financial Institutions.

- (h) The applicant requests and authorises our Company:-

- (i) our Company or MIH does not receive the applicant's Electronic Share Application; or
  - (ii) data relating to the applicant's Electronic Share Application is wholly or partially lost, corrupted or not otherwise accessible, or not transmitted or communicated to our Company or MIH,

- (m) Our Directors reserves the right to require any successful applicant to appear in person at the registered office of MIH within fourteen (14) days of the date of the notice issued to him to ascertain the regularity or propriety of the application. Our Board shall not be responsible for any loss or non-receipt of the said notice nor shall they be accountable for any expenses incurred or to be incurred by the successful applicant for the purpose of complying with this provision.

### 16.6 CDS ACCOUNTS

Pursuant to Section 14(1) of the Securities Industry (Central Depositories) Act, 1991, Bursa Securities has designated our Shares as Prescribed Securities. In consequence thereof, the shares issued/offered through this Prospectus will be deposited directly with Bursa Depository and any dealings in these shares will be carried out in accordance with the Securities Industry (Central Depository) Act, 1991 and Rules of Bursa Depository.

Following from the above, in accordance with Section 29 of the Securities Industry (Central Depositories) Act, 1991, all dealings in the IPO Shares will be by book entries through CDS account. No share certificates will be issued to successful applicants.

Only an applicant who has a CDS account can make an application by way of an Application Form. An applicant should state his CDS account number in the space provided on the Application Form and he/she shall be deemed to have authorised Bursa Depository to disclose information pertaining to the CDS account to MIH/our Company. Where an applicant does not presently have a CDS account, he/she should open a CDS account at an ADA prior to making an application for the IPO Shares.

In the case of an application by way of Electronic Share Application, only an applicant who has a CDS account can make an Electronic Share Application and the applicant shall furnish his CDS account number to the Participating Financial Institution by way of keying in his CDS account number if the instructions on the ATM screen at which he enters his Electronic Share Application requires him to do so.

Failure to comply with these specific instructions or inaccuracy in the CDS account number, arising from use of invalid, third party or nominee accounts, may result in the application being rejected. If a successful applicant fails to state his/her CDS account number, the issuing house on the authority of our Company will reject the application. The issuing house on the authority of our Board also reserves the right to reject any incomplete and inaccurate application. Applications may also be rejected if the applicants' particulars provided in the Application Forms, or in the case of Electronic Share Application, if the records of the Participating Financial Institutions at the time of making the Electronic Share Application differ from those in Bursa Depository's records, such as the identity card number, name and nationality.

### 16.7 NOTICE OF ALLOTMENT

Shares allotted to all successful or partially successful applicants will be credited to their respective CDS accounts. A notice of allotment will be despatched to the successful or partially successful applicant at his address last maintained with the Bursa Depository at the applicant's own risk within five (5) market days after the final ballot of the Application. For Electronic Share Application, the notice of allotment will be despatched to the successful or partially successful applicant at his address last maintained with the Bursa Depository at the applicant's own risk within five (5) market days after the ballot of the Application. This is the only acknowledgement of acceptance of the application.

All applicants must inform Bursa Depository of his/her updated address promptly by adhering to certain rules and regulation of the Bursa Depository, failing which, the notification letter on successful allotment shall be sent to the applicant's address last maintained with Bursa Depository.

Applicants may also check the status of their application by logging on to the MIH's website at [www.mih.com.my](http://www.mih.com.my) or by calling their respective ADAs at the telephone number as stated in Section 16.8 of this Prospectus or MIH Enquiry Services at 03-2693 2075 (10 lines), between five (5) to ten (10) market days (during office hours only) after the balloting date.
