The preparation of an interim financial report in conformity with FRS 134 – Interim Financial Reporting, requires management and the Directors to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities and income and expenses on a year to date basis. Actual results may differ from these estimates.

The interim financial report contains condensed consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group. The interim consolidated financial report and notes thereon do not include all the information required for a full set of financial statements prepared in accordance with FRSs.

2. Summary of significant accounting policies

The significant accounting policies adopted are consistent with the audited pro-forma consolidated financial information and the accountants' report for the financial year ended 30 June 2007 as disclosed in the Prospectus dated 28 December 2007 except for the adoption of new/revised FRSs effective for the financial period beginning 1 July 2007, the details of which are below:

Changes in accounting policies

The new accounting standards, amendments to published standards and IC interpretations to existing standards that are effective for accounting periods beginning on or after 1 October 2006 are as follows:

a) FRS 117 - Leases

Prior to 1 July 2007, leasehold land held for own use was classified as property, plant and equipment and was stated at cost or valuation less accumulated amortisation and impairments losses, if any.

2. Summary of significant accounting policies (Cont'd)

Changes in accounting policies (Cont'd)

a) FRS 117 - Leases (Cont'd)

The adoption of the revised FRS 117 will result in a retrospective change in the classification of leasehold land from property, plant and equipment to prepaid lease payments. There are no financial effects on the income statement as a result of this reclassification.

b) FRS 124 - Related Party Disclosures

This standard affects the identification of related parties and other similar related party disclosures. This standard requires the disclosure of related party transactions and outstanding balances with other entities in a group. Intra-group related party transactions and outstanding balances are eliminated in the preparation of the consolidated financial statements of the Group. The adoption of FRS 134 has no financial impact on the Group's consolidated financial statements.

NOTES TO THE UNAUDITED INTERIM FINANCIAL REPORT

11. Completion of Initial Public Offering exercise (Cont'd)

These acquisitions were accounted for under the merger method whereby the difference between the acquisition cost and the nominal value of the share capital of the subsidiary is taken to the merger reserve or deficit.

As the business combination involves entities under common control, it is presumed that these entities had always been a part of the Group and the 12 months financial results from 1 July 2007 to 30 June 2008 of the Company and its subsidiary companies have been reflected as such in the interim condensed consolidated income statement.

For accounting purposes, the acquisitions were deemed completed on 30 November 2007 as the Board is of the view that financial effects from 20 November 2007 to 30 November 2007 is not material. The resulting merger deficit amounts to RM28.57million.

(c) Utilisation of IPO Proceeds (Cont'd)

After due consideration and in the best interest of the Group, the utilisation of proceeds has been revised as follows:

Details of the proposed utilisation of proceeds	Proposed Utilisation RM'000	Change in utilisation RM'000	Revised utilisation RM'000	
Extension of lease period for the existing leasehold land	5,663	(5,663)	-	Note 1

Extension of lease period for the new leasehold land	2,710	(2,710)	-	Note 1

Estimated listing expenses	1,800	(114)	1,686	
	22,113	-	22,113	

Note 1 – Extension of lease period

The Group's factory and head office is currently situated on a piece of leasehold land, namely Lot 24, Jalan Teknologi, Taman Sains Selangor 1, Kota Damansara and the new factory is being constructed on an adjacent piece of leasehold land, namely Lot 2. Both pieces of leasehold land have lease tenures of 30 years.

The previous intention was to extend the lease for both pieces of leasehold land to 99 years to minimise any future disruptions to the business operations.

The Group is of the opinion that the extension of the lease period is not of immediate priority and the IPO proceeds would be better utilised to further the Group's overseas expansion, factory construction as well as for working capital requirements.

(c) Utilisation of IPO Proceeds (Cont'd)

Note 2 – Construction of new factory, machinery and equipment

The previous estimated cost of construction of the new factory together with the cost of purchase of new machinery and equipment was expected to amount to RM4.3million.

The revised estimated cost amounts to RM8million, mainly due to upgraded specifications of the factory, machinery and equipment and also an increase in construction costs.

Note 3 - Working capital requirements

The balance of the IPO proceeds will be utilised to meet part of the Group's working capital requirements as well as its overseas expansion activities.

The overseas expansion is in line with the Group's overall business growth and sustainability strategies of opening new markets.

The Group targets the high growth markets of the Middle East, China and Asia Pacific regions.
