PART B : EXPLANATORY NOTES PURSUANT TO APPENDIX 9B OF THE LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD

B1. Review of Performance

The Group recorded a profit before tax of approximately RM2.4 million on the back of revenue of approximately RM45.2 million for the current quarter ended 30 June 2008 and a profit before tax of approximately RM4.5 million on the back of revenue of approximately RM93.2 million for the six (6) months period ended 30 June 2008.

The Group recorded total export sales of approximately RM32.1 million or 34.4% with the remainder of 65.6% was contributed by domestic sales for the six (6) months period ended 30 June 2008. The Group's profit margin, in particular for plastic packaging films and products was marginally lower due to higher costs of raw materials (in particular the plastic resins) caused by higher crude oil prices.

B2. Material Change in Profit Before Tax of Current Quarter compared with Preceding Quarter

	Current Quarter ended 30.6.2008 RM'000	Preceding Quarter ended 31.3.2008 RM'000	Variance RM'000	%
Revenue	45,181	48,030	(2,849)	(5.93)
Profit Before Tax	2,356	2,103	253	12.0

The Group recorded revenue of approximately RM45.2 million for the current quarter ended 30 June 2008, representing a decrease of 5.93% from RM48.0 million recorded in the preceding quarter. This was due largely to lower sales of polymers and polymer products for domestic markets. The Group recorded a profit before tax of approximately RM2.4 million in the current quarter ended 30 June 2008, representing an increase of 12.0% over the profit before tax of approximately RM2.1 million recorded in the preceding quarter. This was due largely to higher profit margin for polymers and polymer products in line with higher selling prices.

B3. Current Year Prospects

The Board expects the Group's export sales to pick up in the second half of 2008 in line with the expected launch of new products as well as higher seasonal demand from overseas markets. Barring any unforeseen circumstances and with the gradual passing down of higher costs of raw materials to customers, the Board expects the Group would achieve higher profits for the remaining quarters which would contribute towards achieving the Group's profit after tax forecast of RM11.9 million for the financial year ending 31 December 2008 as disclosed in the Company's Prospectus dated 20 February 2008.

B4. Variance between Actual Profit and Forecast Profit

Not applicable in the current quarter.

Deferred tax	88	24
	237	340

The deferred tax liabilities arose from capital allowances over depreciation of qualifying plant and equipment. The effective tax rate of the Group for the current quarter was lower than the statutory tax rate due mainly to utilisation of available reinvestment allowances by the subsidiaries of the Group under the Income Tax Act, 1967.

B6. Unquoted investments and properties

There were no purchases or sale of unquoted investments or properties for the current quarter and financial period to date save for the acquisition of an adjacent industrial land, known as Lot 67 held under H.S.
