B3. Prospects

Handal is in active negotiations with international service providers to further develop Handal to become an integrated one stop shop for Turbo Machinery services as a non oem player. This is inline with what Handal has achieved in its crane business whereby Handal's capabilities extend to being able to provide maintenance, repair and overhaul services for all makes of cranes as a non oem services provider. With the aging oil & gas facilities in Malaysia coupled with reduction in production, we see great prospects for the maintenance, repair and overhauls of Gas Turbines and other turbo machinery offering Oil & Gas operators a lower cost solution while providing Handal a steady and improved income stream.

We are experiencing an increase in the request for tenders recently and we have been actively participating in these tenders. Handal is optimistic of an improved order book in the very near future.

Barring any unforeseen circumstances, Handal is expecting an improved financial performance in 2024.
