Q2-2017 vs Q2-2016

For the 3 months period ended 30 June 2017, the Group achieved a turnover of RM52.31 million compared to RM56.82 million for the same period last year, a reduction of 7.93%. This was mainly attributed to a reduction in demand from overseas customers in this quarter.

The Group recorded a lower pre-tax profit of RM4.11 million and profit after tax of RM4.06 million against the pre-tax profit of RM6.57 million and profit after tax of RM5.12 million in the previous corresponding period. These decrease were mainly due to:

- a) reduction in the demand from overseas customers;
- b) increase in raw materials cost;
- c) additional depreciation cost incurred for the new plant in Senai.

H1-2017 vs H1-2016

For the 6 months period ended 30 June 2017, the Group achieved a turnover of RM106.23 million compared to RM108.18 million for the same period last year, a marginal reduction of 1.81%. This is again primarily attributed to a reduction in demand from overseas customers.

As for pre-tax profit, the Group recorded a lower pre-tax profit of RM10.79 million against the pre-tax profit of RM11.23 million in the previous corresponding period, a reduction of 3.89%. Reasons for the reduction in turnover and the pre-tax profit are as stated above.

The Group recorded profit after tax of RM10.31 million for the first half year of 2017 compared to profit after tax of RM8.63 million in the previous corresponding period, an increase of 19.41%. The Group enjoyed lower effective tax rate in the current quarter and the first half year compared to the previous corresponding period due to the higher reinvestment allowances in year 2017 arising from investments in the new plant in Senai.

UNAUDITED QUARTERLY REPORT FOR THE SECOND QUARTER ENDED 30 JUNE 2017

2 Variation of results against preceding quarter

The Group's performance for the quarter under review as compared to the preceding quarter is as follow:

Description	2nd Quarter 17 RM'000	1st Quarter 17 RM'000	% Change
Revenue	52,310	53,918	-2.98%
PBT	4,114	6,679	-38.40%
PAT	4,056	6,249	-35.09%

For the 3 months period ended 30 June 2017, the Group achieved a turnover of RM52.31 million compared to RM53.92 million for the preceding quarter, a marginal reduction of 2.98%. The Group however reported a lower pre-tax profit of RM4.11 million and lower profit after tax of RM4.06 million compared to a pre-tax profit of RM6.68 million and profit after tax of RM6.25 million in the preceding quarter, a reduction of 38.4% and 35.09% respectively. These were mainly due to the following reasons:

- a) reduction in the demand from overseas customers;
- b) strengthening of Ringgit Malaysia against foreign currency which resulted in lower contribution margin from overseas revenue; and
- c) additional depreciation incurred in 2nd quarter arising from the commencement of operations of the new plant.

3 Prospects

With the completion of the new plant and the successful commissioning of the first more advance and efficient new printing and lamination machines, the Group is in the midst of working with major existing customers and potential customers to qualify this new plant to service these customers. Upon the successful certification of this new production process, the Group expects the overall performance to improve.

Another three sets of advance and efficient machines are schedule to be delivered in the last quarter of 2017, which will be commissioned and ready for production towards the end of the first quarter of 2018. The Group expects these machines to further improve the overall productivity and efficiency.

Barring unforeseen circumstances, the Board expects to deliver satisfactory results for the financial year ending 31 December 2017.
