A. EXPLANATORY NOTES PURSUANT TO FRS 134 INTERIM FINANCIAL REPORTING

CHANGES IN ACCOUNTING POLICIES (CONTINUED)

The adoption of the abovementioned FRSs, Amendments to FRSs and Interpretations do not have any significant impact on the financial statements of the Group except for the following:

FRS 127 : Consolidated and Separate Financial Statements (revised) ("FRS 127")

FRS 127 requires accounting for changes in ownership interests by the Group in a subsidiary, while maintaining control, to be recognised as an equity transaction. When the Group loses control of a subsidiary, any interest retained in the former subsidiary will be measured at fair value with the gain or loss recognised in profit or loss. The revised standard also requires all losses attributable to the non-controlling interest to be absorbed by the non-controlling interest instead of by the parent. The term minority interest was replaced by the term non-controlling interest.

14. REVIEW OF PERFORMANCE FOR CURRENT QUARTER AND FINANCIAL YEAR-TO-DATE

The Group's revenue, on q-o-q, decreased by RM16.06million to RM60.49million compare to the same period last year. On y-o-y, the Group revenue has reduced by 23.7% to RM264.40 million. This reduction was mainly due to lower revenue from Engineering division as most of the major projects had been completed in the previous financial year.

Quarterly and yearly Loss After Tax (LAT) of RM7.22 million and RM27.71 million was better compared to RM49.78 million and RM45.97 million registered in the previous year. Higher LAT in the previous year was due to significant provisions and impairment under FRS139 and fair value adjustments.

Manufacturing — Retail solutions has improved its revenue by 24.05% y-o-y to RM167.56 million, despite of the group under performance. While maintaining its consistency supply under existing contracts to its major clients, the improvement is attributed to the new supplies and contracts to countries in South American and African.

Manufacturing – Semiconductor's revenue continue to deteriorate y-o-y to RM9.32 million from RM14.82 million. The production capacity remains low at less than 30% and the one off return of stock in consignment arrangement with one of customer have resulted the under performance of the division.

Revenue from Trading and services division dropped by 21.47% y-o-y from RM46.86 million to RM36.80 million. The drop was attributed to the lacking of new orders from the targeted Malaysia's oil and gas market.

Engineering division's revenue, on y-o-y, shrunk by 56.92% to RM78.56 million from RM182.39 million compared to the previous year as major projects within Malaysian have been completed last year and there is no new major project secured during this period.

15. REVIEW OF PERFORMANCE FOR CURRENT QUARTER AS COMPARED TO THE PRECEDING QUARTER

| | Current Quarter | Preceding Quarter ended 31 December 2011 | |
|----------------|-----------------|--|--|
| | RM'000 | RM'000 | |
| Revenue | 60,494 | 61,476 | |
| Loss after tax | (7,224) | (10,970) | |

Current quarter's revenue of RM60.5 million was marginally lower compared to RM61.5 million of the preceding quarter, this slight decline was mainly due to lower revenue recorded by manufacturing – retail division.

Loss After Tax (LAT) has decreased from RM10.97 million to RM7.22 million, as result of a lower loss suffered by Manufacturing – Semiconductor division.

16. PROSPECTS

The manufacturing - retail solution and trading and services continued to make good progress and profit with greater acceptance of our products and services by the existing international clients. However, this positive performance was negated by the engineering division performing below expectation.

The Board is mindful of the uncertain outlook of the engineering division for the rest of current year, recognizing this fact, the Board will continue to diligently undertake cost control initiatives.

17. TAXATION

| | Current Quarter | Year to date | |

| Deferred taxation | (50) | (50) | |
| | (95) | 1,080 | |

The estimated effective tax rate of 4.1% was lower than the statutory tax rate because the Group would be expected to exercise group relief provision as provided by Income Tax Act 1967.
