(3) Prospects and outlook

The current challenging operating environment brought about by the Covid-19 pandemic and geopolitical uncertainties, among others, are expected to prevail. Various issues such shortages in labour, component parts and shipping containers continue to plague many industries globally. This has resulted in rising cost of production with pressure on profit margins. Labour Shortages is the main concern in the Malaysian Manufacturing Industry .

As a management team, we remain focused on delivering long-term value for our shareholders and committed to growing our profit margins with diversification of products and industries.

On a positive note, overall demand by customers remains strong and is largely expected to improve in the coming quarter. Mass production for the new key customers are expected to further increase our group's revenue.

(4) Variance from profit forecast

No profit forecast was issued during the financial period under review.
