The report should be read in conjunction with the audited financial statements for the financial year ended 31 December 2019.

#### A2 Significant Accounting Policies

The accounting policies, presentation and methods of computation adopted for the unaudited condensed interim financial statements are consistent with those adopted for the audited financial statements for the financial year ended 31 December 2019 except for the adoption of new MFRSs, amendments to published standards and IC Interpretations for the Group for the financial year beginning 1 January 2020:

Amendments to MFRS 3	Definition of Business
Amendments to MFRS 101 & MFRS 108	Definition of Material
Amendments to MFRS 9, MFRS 139 & MFRS 7	Financial Instruments

The Group also adopted the following accounting standards, amendments and interpretations where applicable for the financial period beginning on or after 1 June 2020:

#### COVID-19 – Related Rent Concessions (Amendment to MFRS 16 – Leases)

The amendment exempts a lessee from having to consider individual lease contracts to determine whether rent concessions occurring as a direct consequence of the COVID-19 pandemic are lease modifications and allows lessee to account for such rent concessions as if they were not lease modifications. It applies to COVID-19 related rent concessions that reduce lease payments due on or before 30 June 2021.

The adoption of the above MFRSs, amendments to published standards and IC Interpretations do not have any material impact on the unaudited condensed interim financial statements of the Group.

# HARN LEN CORPORATION BHD (“Harn Len” or “the Company”) (502606-H)

## EXPLANATORY NOTES TO THE SECOND QUARTER INTERIM FINANCIAL REPORT FOR THE PERIOD ENDED 30 JUNE 2020.

The Group is actively monitoring the COVID-19 situation as it is still evolving and operations are adjusted from time to time in minimising unfavourable business impact. The Group will also remain cautious and continue to chart out various strategies, which include efforts to increase efficiency and cost rationalization to counter any negative impact to the Group results.

CPO price is currently hovering between RM2,600 to RM2,800 per m/t, the best price post COVID-19 outbreak. However, moving into Q4 2020, the CPO price rally is expected to soften as stockpile may rise due to peak crop production season. CPO price is forecasted to an average between RM2,400 to RM2,500 per m/t for year 2020. The Group strongly believe that year 2020 CPO price will be above 2019 average of RM2,119 per m/t.
