NOTES TO THE QUARTERLY REPORT FOR THE FINANCIAL QUARTER ENDED 30 JUNE 2015

B EXPLANATORY NOTES PURSUANT TO THE LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD

1 Review of the performance of the Company and its Principal Subsidiaries.

The Group recorded a turnover of RM2.777 million and a pre-tax profit of RM1.203 million for the financial period ended 30 June 2015 against the preceding year's corresponding period turnover of RM3.183 million and a pre-tax profit of RM0.877 million.

The gaming operations in Vietnam achieved a revenue of RM1.190 million and a pre-tax profit of RM1.174 million against a revenue of RM1.416 million and a pre-tax profit of RM0.931 million in the preceding period. We had ceased operations on 15 April 2015 upon expiry of our Lease Agreement with the Hotel as we were unable to renew the said lease. Upon closure of our operations, the net surplus cash available was distributed as profit and hence, resulted in a higher profit result in the current quarter.

The gaming operations in Cambodia continue to contribute positively with a revenue of RM0.086 million and a pre-tax profit of RM0.058 million.

Our associated company contributed to a share of profit of RM0.104 million against a share of loss of RM0.134 million in the preceding period as the electronic gaming outlets in Nepal were closed from April 2014 to July 2014 due to unfavourable new annual royalty fee imposed by the Nepal government. The clubs were subsequently re-opened in August 2014.

The manufacturing division registered a revenue of RM1.003 million and a pre-tax profit of RM0.046 million, against a revenue of RM1.186 million and a pre-tax profit of RM0.206 million in the preceding period. The declined profit is mainly due to reduced sales order from a major overseas customer.

As expected, the consumer financing business continue to record a lower profit with a declining revenue of RM0.070 million and a pre-tax profit of RM0.064 million due to a declining loan base as the Company had ceased this business.

The hotel operation in Laos remained loss-making, with a revenue of RM0.338 million (USD0.090 million) and a pre-tax loss of RM0.143 million (USD0.038 million), as compared to a revenue of RM0.349 million (USD0.108 million) and a pre-tax loss of RM0.040 million (USD0.012 million) in the preceding period. Despite its loss position, the cash flow of the hotel remained positive as its loss were mainly due to its depreciation charge.

2 Material changes in the Quarterly Results compared to the results of the Preceding Quarter
For the 1st quarter ended 30 June 2015, the Group achieved a turnover of RM2.777 million and generated a
pre-tax profit of RM1.203 million as compared to a revenue of RM2.261 million and pre-tax profit of RM0.370 million
in the preceding quarter ended 31 March 2015.

The improved pre-tax profit in the current quarter was mainly attributable to the following factors:

- i) The Vietnam operations registered a higher pre-tax profit of RM1.174 million against a pre-tax profit of RM0.500 million in the preceding quarter. As highlighted in Item B1 above, the net surplus cash available upon closure of our Vietnam operations was distributed as profit and hence, resulted in a higher profit result in the current quarter.
- ii) Our associate contributed to a share of profit of RM0.104 million against a share of loss of RM0.102 million in the preceding quarter.

4 Prospects

- i) Contribution from the consumer finance business to the earnings of the Group is on a reducing scale due to a declining interest income resulting from loan redemption.
- ii) Amidst stiff competition in the market and escalating raw material costs from the weakening of the ringgit, the manufacturing division will strive to remain resilient and continue to embark on improvement in production and operational efficiencies to ensure the competitiveness of its products.
- iii) Our gaming operations on a revenue sharing basis with a casino in Cambodia is expected to contribute positively to the long term earnings of the Group.
- iv) Pursuant to the said club closure in Vietnam, the overall gaming division is expected to continue to contribute positively to the long term earnings of the Group albeit on a lower scale.
- v) The Board is currently looking into improving the business of our hotel in Lao PDR and at the same time considering disposal of the hotel.
- vi) The electronic gaming outlets in Nepal are expected to contribute positively to the earnings of the Group.
- vii) Moving forward, the Board will remain cautious and be on the look out for any new investment opportunities to further enhance the earnings of the Group.
