FRS 9 (IFRS 9 issued by IASB in July 2014) replaces the existing guidance in FRS 139 and introduces a revised guidance on the classification and measurement of financial instruments, including a single forward-looking 'expected loss' impairment model for calculating impairment on financial assets, and a new approach to hedge accounting. Under the FRS 9, the classification of financial assets is driven by cash flow characteristics and the business model in which a financial asset is held. Therefore, it is expected that the Company's investments in unquoted shares that are currently stated at cost less accumulated impairment losses will be measured at fair value through other comprehensive income upon the adoption of FRS 9. The Company is currently assessing the financial impact of adopting FRS 139.

MASB has issued a new MASB approved accounting framework, the Malaysian Financial Reporting Standards ("MFRS"), that are to be applied by all entities other than private entities; with the exception of entities that are within the scope of MFRS 141 (Agriculture) and IC interpretation 15 (Agreements for Construction of Real Estate), including its parent, significant investor and venturer (herein called "transitioning entities").

As announced by MASB on 2 September 2014, the transitioning entities are allowed to defer the adoption of MFRSs to annual periods beginning on or after 1 January 2017.

Accordingly, as a transitioning entity as defined above, the Company has chosen to defer the adoption of MFRSs and will only prepare its first set of MFRS financial statements for the financial year ending 31 December 2017. The Company is currently assessing the possible financial impacts that may arise from the adoption of MFRSs and the process is still ongoing.
