Under the agreement, the State Government of Sabah granted permission to the Company to plant, rehabilitate and harvest forests in the sustainable forest management concession area.

Out of the total 71,293 hectares according to the principal licence agreement, 46,522.67 hectares is marked for Natural Forest Management (NFM), 9,340.42 hectares for conservation and the remaining 15,429.91 hectares for Industrial Tree Plantation (ITP).

The Company had subsequently on 12 April 2018 entered into a supplemental agreement with the State Government of Sabah to convert a total area of 25,633.58 hectares for Totally Protected Area (15,438.30 hectares) and excised an area for socio-economic purposes (10,195.28 hectares). There are no significant or detrimental operational and financial impact affecting the Company. Nevertheless, the conversion may enhance the Company's long term prospect as the ITP area increased from 15,429.91 hectares to 30,399.14 hectares and hence will enable the Company to enhance its production capacity and area for planting.

To date, total area planted with various tree species under the ITP area is about 4,135.7 hectares with a total expenditure of RM22,290,207.

The Group has carried out a valuation exercise on the Biological Asset during the quarter ended 31 December 2020. The biological asset previously stated in the financial statement at cost which comprises expenditure incurred on infrastructure cost, land clearing, new planting, enrichment planting, silvicultural treatments, upkeep and maintenance of the sustainable forest management concession area is reclassified as intangible asset.
