The Group reviewed its accounting policies and considered transitional opportunities under MFRS 1 on this date. The impact of the transition to MFRS is described in Note 2 below.

The Board of Directors of the Company had on 24 July 2013 approved the change of financial year of the Company from 31 August to 31 December. Due to the change, the financial period ended 31 December 2013 is made up of 16 months results from 1 September 2012 to 31 December 2013. As such, no comparative figures are presented for the Statements of Comprehensive Income as there are no comparable interim periods (current and year-to-date) of the immediate preceding financial year.

2. Accounting policies and application of MFRS 1

The audited financial statements of the Group for financial year ended 31 August 2012 were prepared in accordance with FRS. With the exception of certain differences, the requirements under FRS and MFRS are similar. The accounting policies adopted in preparing this interim report is consistent with those used in the Audited Financial Statements of the Group for the financial year ended 31 August 2012 except for the changes arising from the adoption of the following:

Application of MFRS 1

MFRS 1 allows exemption from the application of certain MFRS to assist companies with the transition process. The Group has utilized the following optional exemption contained within MFRS 1 to prepare the Group's statement of financial position as at 1 September 2011.

Property, plant and equipment

The Group has previously adopted a cost model for its property, plant and equipment except for certain buildings and leasehold land which was revalued by the directors in 1994 based on the valuation carried out by independent professional valuers on an open market basis. The properties have not been revalued since they were first revalued in 1994. As permitted under the transitional provisions of IAS 16 (Revised): Property, plant and equipment, these assets continue to be stated at their 1994 valuation less accumulated depreciation.

Upon transition to MFRS, the Group has elected to measure its property, plant and equipment using the cost model under MFRS 116: Property, Plant and Equipment. At the date of transition to MFRS, the Group uses the previous revaluation at or before the date of transition as deemed cost. The revaluation surplus was transferred to retained earnings on date of transition to MFRS.

The impact arising from the above on the statement of financial position is summarized as follows:
